COMMUNION ELECTION WARNING IS GIVEN

Governor-General Arrives Here To-morrow

Lord Willingdon And Party Coming For Six-day Stay

Welcome Will Be Tendered Lord and Lady Willingdon at Wharf To-morrow Morning at 9.30 o'clock by Administrator, Acting Premier, Naval and Military Officials and Mayor; Address to Canadian Club by Viscount at Empress Hotel.

Viscount Willingdon, Governor-General of Canada, and Viscountess Willingdon, with members of the vice-regal party, making a tour of Western Canada, will arrive in Victoria to-morrow morning from the mainland. It will be the first visit of Their Excellencies to the British Columbia capital since April of last year.

Chief Justice J. A. Macdonald, Administrator of the Province; Hon. R. H. Pooley, Acting Premier; Brigadier J. Sutherland Brown, D.O.C.; Lieut.-Commander L. W. Murray, senior naval officer, and Mayor Herbert Anscomb will form the official reception party to meet the vice-regal visitors at the boat to-morrow and convey the greetings of the capital.

Other government ministers who are in the city are also expected to join the welcoming party. A. M. D. Fairbairn, private secretary to the Lieutenant-Governor and Capt. H. Molson, A.D.C. to His Honor, will attend His Excellency.

WILL INSPECT EMPRESS
After the official greetings at 9.30 o'clock, the party will proceed to the Empress Hotel to inspect the new vice-regal suite. The public programme will be followed by Their Excellencies during the sojourn on the islands will be as follows:

Thursday a.m.—Visit to British Columbia Worsteds Mills. 1 p.m., His Excellency will address luncheon of Canadian Club at Empress Hotel.

Friday—Lady Willingdon will be the guest of the Women's Canadian Club at a tea arranged in her honor at the Empress Hotel. 6.15, formal opening by Lord Willingdon of new Scout headquarters, 7 p.m., inspection of Sea Cadet Corps, when Their Excellencies will be accompanied by the Administrator, Chief Justice J. A. Macdonald; His Excellency will dine at Work Point Barracks with the Canadian officers.

Saturday—Launch trip will probably fill part of the day, as Their Excellencies have been invited for a cruise among the islands by Norman Yarrow. (Concluded on Page 17)

VICTORIA MAN STANDS TRIAL IN SEATTLE COURT

Seattle, April 2.—Charles Coburn, president of the Vancouver Colliery Company Ltd. of Victoria, was given a continuance of a week in Justice John B. Wright's court this afternoon where the grand larceny charges against him came up for trial.

Coburn is charged by Kansas City interests with having formulated in Seattle a contract selling to the latter a controlling interest in the Western Mine at Nanaimo, B.C. The contract is said to have involved a \$1,300,000 sale on which the Kansas City interests paid down \$100,000 in cash and a \$9,000 deposit in a bank.

Upon signing the contract the middle west interests are said to have learned that Coburn did not have a controlling interest in the desired mining property and the local grand larceny charges were subsequently sworn to.

Vancouver Labor Out For Five-day Week

Vancouver, B.C., April 2.—Organized labor of the lower mainland plans to initiate a movement leading to a five-day week for all trades unions of the area.

This was decided last night at a regular meeting of the Vancouver New Westminster and District Trades and Labor Council and a meeting of all citizens interested is to be called shortly.

The decision followed announcement that negotiations between representatives of the carpenters and employers for 40 a day and a five-day week had not met with unanimity on the part of employers regarding the five-day week.

Because rumors of compulsory cadet training for students in city technical schools had reached the Trades and Labor Council, the executive of the council was instructed to inquire of the school board if this condition existed.

VICTORIA STUDENT ADDS TO HONORS IN FIELD OF SCIENCE

LESLIE M. HOWLETT
of 1538 Shupham Street, Victoria, who has been awarded a \$1,390 fellowship by the National Research Council to continue his work in physics. This is the third award Mr. Howlett has received from the National Research Council. Previously he was awarded a bursary and last year was given a studentship.

After graduating from the University of British Columbia with the degree B.A., he proceeded with a scholarship to Toronto University, where he won the Research Council bursary. Last year he continued his studies at McGill, from which university he is expected to graduate with a degree of Ph.D. at the close of this term.

Plan Reported For Canada and China Ministers' Exchange

Ottawa, Ont., April 2.—No conversations with a view to an exchange of ministers between Canada and China are proceeding. This was stated to-day at the Department of External Affairs here, when attention was drawn to a despatch from Shanghai saying such negotiations were underway.

NAVAL PARLEY HALTS FEW DAYS

London, April 2.—Official announcement was made to-day that the plenary session of the naval conference called for Friday had been postponed until next week.

It was stated that more time was needed for discussion of the Anglo-French security problem.

Tariff Against Canadian Wood Draws Protest

Washington, D.C., April 2.—It is not impossible but it is not probable the proposed tariff of \$1.50 per thousand board feet of Canadian softwood will be taken out of the Hawley-Smoot tariff bill before it becomes law. Fair interests are still fighting to have the duty on the building material they use so much removed.

Senator Capper, Republican, Kansas, calling the bill generally an aid to agriculture, contended the lumber tariff, saying it would add \$50,000,000 to \$60,000,000 a year to the cost of building construction in this country.

GRAND JURY MAKE PLEA FOR ACTION

Present Courthouse Described As Fire Trap

Valuable Records Are Daily in Jeopardy

A strong plea for immediate action to replace existing accommodation at the Provincial Courthouse was made by the Grand Jury at the Victoria assizes in a presentment before its discharge to-day.

The Grand Jury said: "We, the Grand Jury, sitting at the Victoria spring assizes of 1930, beg to call your lordship's attention to the inadequate facilities and disgraceful condition of the Victoria, British Columbia Courthouse.

"We consider it not in harmony with our present standards of government, nor in conformity with the dignity of the administration of our laws, either in this Province or the Dominion of Canada.

"In our opinion the building is a firetrap, exposing the valuable law records and libraries to destruction.

"The accommodation reserved for witnesses is a flagrant disgrace, conditions existing which should not be tolerated by a health officer.

"The interior of the building presents an antiquated appearance not in keeping with modern requirements.

"We are confident the interests of the public are jeopardized by the fact that some 300 (more or less) recording ledgers, covering the titles to the extent of possibly some 50,000 properties on Vancouver Island and a portion of the mainland, have to be left out on the desks of the general office both day and night; these cover property valued at many millions of dollars.

"We consider that vault accommodation should be provided to adequately take care of all deed registers.

"With reference to the foregoing, while similar recommendations have been presented for many years, we very much regret that no action has yet been taken, and we trust that in view of the very pressing need something will immediately be done to relieve the situation.

"We have pleasure in acknowledging the attention and courtesy shown us by officers of the court. All of which was submitted on behalf of the Grand Jury."

(Signed) THOMAS S. McPHERSON, Foreman.

Mr. Justice Murphy promised the recommendations of the Grand Jury would be submitted to the Provincial authorities.

Thomas McPherson (foreman), Hugh Allen, Harry Barnes, Fred Easthope, William Hynd, Walter Holliday, James Mitchell, George Newton, Kenneth Oldfield, Frances Pearce, William Rennie, George Straith, and Ernest Wilson compose the Grand Jury.

SCHOLARSHIPS FOR RESEARCH ARE AWARDED

Sixty-five Grants For Industrial Study in Canadian Universities

Ottawa, April 2.—Sixty-five persons have been successful in securing National Research Council post-graduate research scholarships tenable in Canadian universities during the year 1930-31.

This year considerably more than twice as many applications were received as there were awards available, says a statement issued to-day by the Research Council.

Three classes of post-graduate scholarships are awarded, known as bursaries, studentships and fellowships, having an annual value of \$750, \$1,000 and \$1,200 respectively. These awards are qualified for a Ph.D. degree in order to build up a corps of thorough trained research workers for service in Canadian industries, universities and in the technical departments of the Federal and Provincial Governments.

(Concluded on Page 17)

W. H. Leckie of Vancouver Dead

Vancouver, April 2.—After a long fight against an exhausting illness, W. H. Leckie, who for thirty years was one of Vancouver's best-known industrialists and public figures, died at 11 a.m. at the General Hospital. He had been at that institution for more than a month.

TEN-CAR FERRY TO SERVE SALT SPRING ROUTE

Gulf Islands Ferry Company to Put Vessel Into Operation in June

An auto ferry with capacity of eight or ten small cars and considerable passenger and freight space will be placed in operation between Swartz Bay, near Sidney, and Fulford Harbor, Salt Spring Island, early in June, it was announced to-day by officials of the Gulf Islands Ferry Company Limited, which has been awarded the contract by the Department of Public Works.

A secondhand craft has been purchased and reconditioned for the service. Application has been made for registration of the vessel.

The first direct motor ferry connection between Victoria and Salt Spring Island will be inaugurated when the service commences. Agitation for the opening of a service has been going on for several years by residents of Salt Spring Island as well as local bodies, and the new ferry will fill a long-felt want.

Farmers of the Island will be able to ship their produce expeditiously to the city and a freer movement of the Island people to the city will be promoted.

As a tourist asset the new ferry is regarded as highly valuable. Salt Spring Island has several attractive resorts which up to the present time have been more or less inaccessible to those wishing to travel by automobile and the ferry connection will provide facilities for steady travel of cars between the Island and the Saanich Peninsula.

Ferry landings will be constructed for the Department of Public Works at Swartz Bay and Fulford. Tenders have been called for this work, which it is expected, will be completed by June 1.

It is understood the same parties who control the Vancouver Island Coast Lines are interested in the Gulf Islands Ferry Company. The government subsidy is said to be \$9,000 a year.

MISSIONARIES SAFE

Washington, April 2.—The National Catholic Welfare Conference has informed the state department that members of the American Catholic Mission at Kanchow, China, who, last week, were reported in danger from Chinese brigands, are safe.

FOUR BUILDINGS WIPED OUT BY FIERCE FIRE AT SHAWNIGAN LAKE

Fire which broke out at 1 o'clock this afternoon at Shawnigan Lake had wiped out several buildings and was still burning at 3 o'clock, according to reports reaching the city.

The whole business settlement of Shawnigan Lake except W. Hayward's store, had been destroyed, it was reported. The damage is expected to reach many thousands of dollars.

A grass fire near the railway tracks started the conflagration. Fanned by a high wind the flames spread to the buildings and one by one they were destroyed.

The Shawnigan Lake Hall, McLarn's store and grain warehouse, and the post office operated by J. T. Rathbone were completely wiped out. Mail in the post office was also burned.

The Shawnigan Lake Athletic Association hall was the first building to go. As the flames gained hold on the wooden structure, they turned it into a blazing inferno and the other buildings caught fire.

Residents from the area gathered to fight the flames. Little headway could be made against the flames in the high wind, however.

A waterfront near the railway tracks was also burned.

Big Waterfront Plans Reported For Vancouver

Vancouver, April 2.—Construction of a cold storage plant, fish-ermen's wharf and fish storage plant costing \$1,500,000; addition of 5,200,000 bushels to the port's grain storage capacity; and preparation of plans for a deep-sea pier at Hastings mill site are projects which will be undertaken by the Vancouver Board of Harbor Commissioners. It is announced by F. R. Russell, chairman, in a statement issued to-day.

ITALY-FRANCE NAVAL PARITY NEXT OBSTACLE

By GEORGE HAMBLETON
Canadian Press Staff Correspondent
London, April 2.—The telegraph wires between London and Paris were humming to-day. The foreign Ministers of Britain and France, Mr. Bonar Law and Aristide Briand, were understood to have reached a draft of the Anglo-French formula which is to solve the League of Nations problem of the interpretation of Article 16 of the League Covenant. But it was only a draft and conversations are to continue.

If this formula is agreed to, then France will probably consider it sufficient additional security to enable her to cut down her naval programme figures. And thus the second of three great obstacles to success of the five-power naval conference will have been removed. The first was the three-power understanding between Britain, the United States and Japan, which has been approved by the three powers. The third, hardly tackled yet, is the interpretation of Article 16 of the League Covenant. But it was only a draft and conversations are to continue.

It is understood the draft of the Anglo-French formula takes as its basis the interpretation of Article 16 of the League of Nations. The British view of this interpretation is that it neither adds to nor limits the obligations contracted underneath. It merely defines them.

There was no question at Locarno, it was stated to-day, of Britain either incurring fresh obligations under Article 16 or limiting existing obligations. (Concluded on Page 17)

COSGRAVE DEFEATS VALERA IN IRISH FREE STATE VOTE

William T. Cosgrave, re-elected President of Irish Free State to-day.

EAMONN DE VALERA
defeated by a vote in the Dail of 93 to 74.

Dublin, Irish Free State, April 2.—William T. Cosgrave was re-elected President of the Irish Free State Council by the Dail Eireann. Eamonn de Valera, formerly Eamonn de Valera, and Thomas J. O'Connell, the Labor nominee, were defeated; de Valera by a vote of 93 to 74, and O'Connell by 78 to 13.

YOUTH FREED ON MURDER CHARGE

Applause in Vancouver Asize Court as Lad Steps From Dock

Vancouver, April 2.—Nineteen-year-old Charles Melvin McCreight was acquitted in Assize Court last evening of the murder in North Vancouver on November 2 of forty-five-year-old Joe Chew Way, Chinese vegetable pedlar.

For the murder of the Chinaman, Albert Wiser, aged twenty, is under sentence of death. His execution has been fixed for June 13.

McCreight's defence was an alibi. The jury of twelve men deliberated four hours.

"Gentlemen of the jury, have you agreed upon a verdict?" inquired Registrar Aubrey Clark, when the jury returned at 10.45 p.m.

"We find that the prisoner is innocent of the crime," answered the foreman.

The verdict was received in a tense silence.

An attractive and pleasant appearing youth, neatly but not stylishly dressed, the prisoner in the dock looked slightly from the grimly erect position in which he stood to learn his fate.

"I move for the prisoner's discharge, my lord," said his counsel, J. R. Nicholson.

"Discharged," ordered Mr. Justice W. A. Macdonald.

There followed an outburst of applause from the rear of the courtroom, although spectators had been previously warned against a demonstration. It was quickly quelled by court officials.

"Don't do that again in my court," announced the judge sternly.

Led from the courtroom by his friends, McCreight was met at the exit by his mother, Mrs. John Kennedy, his neck, "Mel, on Mel," she sobbed.

The defence closed at 8.30 p.m., when Mr. Nicholson addressed the jury. He was followed by Crown Prosecutor A. H. MacNeill, K.C. His Lordship's charge concluded at 8.40 p.m.

Facing for the second time the murder of two Alaskan, storekeeper about the freighter Ruyin Maru, while berthed at the Lapoint pier on January 30 last.

ROBBERS GET JEWELS

Seattle, April 2.—Two unmasked, armed robbers held up the jewelry store of Goldsmiths Inc. on Second Avenue here to-day and escaped with approximately \$10,000 in diamonds and other jewels.

FOURTH MAN CHARGED IN AUTO FRAUD

W. N. Tompkins Faces Count of Conspiracy to Defraud With S. E. Wallis

Hearing of Several Charges May Come Before Present Assizes

Bringing the total arrests in connection with alleged fraudulent financial transactions of the Consolidated Motors (Victoria) Limited to four, W. N. Tompkins was charged with S. E. Wallis, manager of the firm, in the City Police Court this morning.

Wallis and Tompkins were jointly charged with conspiring to obtain \$1,200 by false pretences from Douglas Mackay and Company Limited, through the issuance of a conditional sales agreement which was not genuine and the discounting of the agreement with Douglas Mackay and Co.

Stuart Henderson appeared for both accused and elected trial by higher court.

On request of C. L. Harrison, City Prosecutor, the case was stood over until Friday when the preliminary hearing will proceed.

ON \$5,000 BAIL.
Tompkins was arrested by Chief of Police John Fry and released on \$5,000 bail.

In connection with the case, Mr. Harrison told the court that certain documents had been seized by police in a search of the premises of the Consolidated Motors and of Arthur Emerson, pursuant to a warrant issued by Magistrate George Jay. He asked that these be turned over to an accountant and the court so ordered.

Possibility of charges against Wallis, Arthur Emerson, A. T. Wright and Tompkins coming before the present sitting of the Assize Court, was mentioned by counsel this morning.

BULLETS FLY IN VANCOUVER HOTEL FIGHT

Man Believed to Be Seriously Wounded By Private Detective

Vancouver, April 2.—An unidentified prowler is believed to have been seriously wounded as the result of a fierce battle with Private Detective Sam Grant at Alisa Lodge, Melville Street, at 3.30 o'clock this morning, during which four shots were fired.

Grant, an employee of Spain's Detective Agency, Granville Street, is engaged as house detective of the Alisa Lodge. Making his rounds early this morning, he discovered a prowler on the sixth floor. Aware of the detective's presence, the man made a dash for the stairway and made good his escape to the second floor, where Grant caught him.

A fierce hand-to-hand struggle ensued, during which Grant struck the prowler over the head with his flashlight. The man, however, managed to break away from the detective and made a dash for the first floor. Grant fired out his gun and fired one shot, but it failed to halt the fleeing prowler.

Chasing the man out of the hotel and on to the street, Grant fired three more shots, one of which is believed to have found its mark.

While he believed in the most friendly relations between the two countries, Senator Willoughby said, he did not think Canada should be too generous in view of the fact that the Volstead Act was not being well enforced, and a straw vote now being taken showed people there were opposed to it.

Vast amounts of money were invested in distilleries, and it was doubtful if any Act of Parliament could stop smuggling. He moved second reading be postponed until a special committee was formed to consider the whole matter.

As government leader he could not accept the amendment, Senator Dandurand replied. The Canadian people were alarmed at the present state of things. We now have a client record in international affairs, he said. "Canada is a young nation and holds her head high, but if this trade continues our record will be stained."

The debate was moved by Senator Tannar.

AUGUST 25 IS MOOTED AFTER LIBERAL CAUCUS

Begin Preparations and Continue Preparation, Mackenzie King Says, But Makes No Official Statement Following Meeting of Supporters To-day.

U.S. Starts on Job of Taking Great Census

Washington, April 2.—An army of 120,000 census enumerators enters energetically to-day upon the gigantic task of counting the American population.

Ring-front-door bells, tapping brass knockers along the hallways of city apartment houses, driving through the gates of farmsteads, searching out obscure families in the mountains and on plains, they embarked upon what is intended to be the most complete tabulation of the United States people and their economic conditions ever accomplished.

While no official statement was issued at the conclusion of the meeting, it is understood Premier Mackenzie King stated that he was no more decided whether to hold an election this year or in 1931 than he was three months ago. But, at the same time, it is said, the Prime Minister warned members they should begin preparations and continue to make preparations.

POSSIBLE DATE
The views of a number of private members were expressed, and it is understood that in the course of this discussion a suggestion was made that August 23 next might possibly be the date for an election.

Senate Views Differ On Liquor Smuggling

Canada Should Not Be Too Generous in View of Poor Enforcement of U.S. Dry Act and Opposition to It, Says Senator Willoughby

BULLETS FLY IN VANCOUVER HOTEL FIGHT

Man Believed to Be Seriously Wounded By Private Detective

Vancouver, April 2.—An unidentified prowler is believed to have been seriously wounded as the result of a fierce battle with Private Detective Sam Grant at Alisa Lodge, Melville Street, at 3.30 o'clock this morning, during which four shots were fired.

Grant, an employee of Spain's Detective Agency, Granville Street, is engaged as house detective of the Alisa Lodge. Making his rounds early this morning, he discovered a prowler on the sixth floor. Aware of the detective's presence, the man made a dash for the stairway and made good his escape to the second floor, where Grant caught him.

A fierce hand-to-hand struggle ensued, during which Grant struck the prowler over the head with his flashlight. The man, however, managed to break away from the detective and made a dash for the first floor. Grant fired out his gun and fired one shot, but it failed to halt the fleeing prowler.

Chasing the man out of the hotel and on to the street, Grant fired three more shots, one of which is believed to have found its mark.

While he believed in the most friendly relations between the two countries, Senator Willoughby said, he did not think Canada should be too generous in view of the fact that the Volstead Act was not being well enforced, and a straw vote now being taken showed people there were opposed to it.

Vast amounts of money were invested in distilleries, and it was doubtful if any Act of Parliament could stop smuggling. He moved second reading be postponed until a special committee was formed to consider the whole matter.

We now have a client record in international affairs, he said. "Canada is a young nation and holds her head high, but if this trade continues our record will be stained."

The debate was moved by Senator Tannar.

Police Seize Books In Broker's Office

Vancouver, April 2.—Vancouver police officers, on instructions of C. H. Locke, counsel for the Alberta Attorney-General's department, to-day seized documents in the offices of Solloway, Mills and Co. Limited here, which were sought by the province of Alberta as evidence at the trial of I. W. C. Solloway and Harvey Mills, to take place at the next assizes in Calgary.

The seizure followed the action of the British Columbia Court of Appeal to-day in granting the brokerage firm leave to appeal to the Supreme Court of Canada against a judgment setting aside an injunction restraining the execution of search warrants, but at the same time refusing to make any order for the reservation of the documents, pending outcome of the appeal.

TO GO TO SUPREME COURT
The Court of Appeal of British Columbia to-day granted Solloway, Mills and Co. leave to appeal to the Supreme Court of Canada.

(Concluded on Page 15)

MILLION NEW WHEAT ACRES

Australian Banks Behind Plan For State of Victoria
(Canadian Press Cable via Reuters)
Melbourne, Australia, April 2.—Addition of 1,000,000 acres with the wheat-growing area of the state of Victoria is the aim of the state government, Hon. William Slater, state treasurer, to-day announced. The associated banks, in co-operation with the government, are making \$1,000,000 available for sowing additional wheat acreage.

The state parliament was formally opened to-day, and Lord Somers, the Governor, in the speech from the throne said the government was introducing a scheme of workers' unemployment insurance. He also forecast early legislation for introduction of the "lottery," or mechanical betting machine, on Victorian race tracks.

Change Your Oil Filter Cartridge Every 10,000 Miles

After this mileage the filtering unit ceases to function as it has become clogged with dirt, sludge and abrasive material taken from the oil. Replacing the cartridge every 10,000 miles means saving in wear, less frequent repairs and real oil economy as the motor oil can be used for 2000 miles or more.

\$2,000,000 WILL CASE IS AIRD IN LEGISLATURE

Manitoba Attorney-General Warns Against Investigating Judge's Recommendations
Millionaire Wholesaler Alleged to Have Been Deceived in Charitable Work

Canadian Press
Winnipeg, April 2.—New developments in the now celebrated \$2,000,000 MacDonald will case were disclosed to members of the Manitoba Legislature last night by Hon. W. J. Major, K.C., Attorney-General.

In a letter read by the Attorney-General, Dr. John MacKay, principal of Manitoba College and a life-long friend of Alexander MacDonald, millionaire wholesaler, expresses the belief that Mr. MacDonald had abandoned a plan to aid certain Winnipeg charities because he was "deceived" and had drawn his will in favor of Mrs. Grace Ann Forlong, his only daughter.

Last night, Mr. Major also advised strongly against the creation of a special committee of the Legislature to investigate recommendations of Judge St. G. Stubbs, of the Surrogate Court. He declared that intervention by the Legislature in the MacDonald case would be in direct conflict with the present system of jurisprudence.

FOR VANCOUVER HOME
Mr. MacDonald had hinted to Dr. MacKay that he had intended to change his will. The pioneer wholesaler planned to provide \$100,000 in his will for the home of the friendless, but following a visit to Vancouver he had expressed doubts as to the conduct of the institution.

"He found while there," said Dr. MacKay in his letter to the Attorney-General, "that the branch of the home for the friendless in Vancouver, which he had been helping in the belief that there were a large number of children there, only had three children, and immediately after his return he found out that the local home, which he had supported liberally in the understanding it had 300 inmates, was found by the Government only to have eighty-two."

"He also told me," added Dr. MacKay, "that he had found that the bright new quarters and half-dollars which he had been in the habit of giving the children, were taken from them as soon as he left, and never seen again."

"GREATLY DEPRESSED"
"He was greatly depressed by this discovery, and said to me again and again, 'If these women would deceive

THREE DAYS LEFT TO REGISTER HERE

Including Saturday, which is a half-holiday, only three days remain to register on the Provincial Voters' List. Registration can be effected at the Courthouse, Bastion Street, for Victoria, Oak Bay and Esquimalt residents eligible to vote at a provincial election. Registration closes on Saturday.

Spanish voters may register with J. G. Dobbs, Cadboro Bay, or through Wallace & Archer, Broad Street. Any authorized voting commissioner for the Province can also effect registration.

me, whom can I trust? I am convinced that his disappointment with the home for the friendless shook his confidence in his own judgment."

"P. C. Hutchings, of Winnipeg, is prepared to swear that Mr. MacDonald told him that he had decided to leave everything to the family, Mr. Hutchings and I waited a whole morning in court to give evidence as to these facts, but for some reason or other we were never called."

The case was brought before the public when Judge Stubbs refused letters of administration for the estate to Mrs. Forlong. He also issued a "final judgment," charging a will presented for probate but later withdrawn, irregular and "void for want of testimony capacity."

His judgment in the MacDonald case was over-ruled by the Manitoba Court of Appeal, and letters of administration granted.

Judge Stubbs reviewed the case in a public speech, in a local theatre, and also issued a pamphlet outlining his decisions. He recommended that criminal proceedings be brought against John A. Forlong, son-in-law of Mr. MacDonald, and W. A. Irish, one of the witnesses to the will.

Forlong and Mr. Irish were later arrested on charges of subornation of perjury and conspiracy. Irish was freed of the charge last week, and Mr. Forlong will be given preliminary hear here Friday.

LABOR FROWNS ON WORK-BILL

Fair Wage Regulation Application Too Limited, Say Officials of Congress
But Many Features Win Praise as Step Towards Goal

Canadian Press
Ottawa, Ont., April 2.—Disappointment by the Trades and Labor Congress of Canada in respect to the provisions of the bill introduced by Hon. Peter Bennett, Minister of Labor, on certain Dominion Government works, is expressed in an official statement to-day. The statement which is signed by Tom Moore, president of the Trades and Labor Congress, and F. M. Draper, secretary-treasurer of the Labor body, reads:

"The bill respecting fair wages and hours of labor on public undertakings introduced to Parliament by the Minister of Labor only partly meets the provision incorporated in the draft bill submitted to the government prior to the opening of the session by the Trades and Labor Congress of Canada. This deals with a matter of intense interest to thousands of workers in every part of the Dominion and is one which organized labor has given considerable study for many years. It is disappointing to find that the Government has not seen fit to bring within the provisions of their bill all government contracts at present covered by the fair wages regulations but have limited its application to one class of contract only, namely those dealing with the construction, remodeling, repair or demolition of any work done by or for the government."

STEP IN ADVANCE
"Notwithstanding its limited scope the bill is a considerable step in advance. Its outstanding features are that it definitely fixes the eight-hour day for workers employed on government undertakings and gives further effect to the provisions of the Wage Act (1919) eight-hour day convention, makes applicable fair wages and hours conditions on jobs done by the government by day labor, and fixes it as the first time statutory authority for the enforcement of fair wages on government works whether such are provided or not in the individual contract."

Hoping that the measure may be improved in its passage through Parliament, it is accepted as a first installment towards the achievement of their objective.

FELLOWSHIPS TO AID SCIENTIFIC GRAIN GROWING

Three Successful Candidates of Canadian Wheat Pool Announced

Canadian Press
Ottawa, Ont., April 2.—Three fellowships established by the Canadian Wheat Pool to further scientific research in problems of the western Canadian grain industry, each having an annual value of \$1,000, have been awarded by the National Research Council. As announced to-day the successful candidates are:
R. G. Dunlop, B.C. University of Saskatchewan, who will undertake research in the department of field-crop and plant biochemistry of the University of Alberta.
H. R. Ballans, D.Sc. University of Saskatchewan, who will undertake research in the department of wheat chemistry of the University of Saskatchewan.
C. A. Winkler, D.Sc. University of Manitoba, who will undertake research in the department of agricultural chemistry of the University of Manitoba.

WOMAN WIELDS HOLD-UP'S GUN

Seattle, April 2.—Police to-day were searching for a slender young woman, who kept the collar of her coat around her face last night as she held a revolver against Charley Schuman while her neatly-dressed male accomplice took \$42.50 from Schuman's pocket.
"Stick 'em up, boy friend," the woman said as she stepped into Schuman's path. Her accomplice then warned him to "keep on going and don't stop, or I'll drill you full of holes."
Two masked men took \$3 from Daniel B. Dawson in his store on Capitol Hill, and another took \$85 from Eggers' Grocery a short distance away.

YOUNG WIFE STRENGTHENED

After Taking Lydia E. Pinkham's Vegetable Compound
Bancroft, Ontario—"When I first took Lydia E. Pinkham's Vegetable Compound I had been married about a year and my strength was leaving me on account of a long illness. I was only 19 and it was my first child. My mother told me I needed something to steady my nerves and a girl chum told me to take the Vegetable Compound. I am so thankful I did because it strengthened my whole system and now I feel perfectly well and have a sweet little baby boy."—Mrs. J. B. STALKER, Bancroft, Ontario.

Brentwood

The cabaret dance held by the West Saanich Women's Institute in aid of the Queen Alexandra Solarium proved a great success. Ozard's orchestra supplied music, and dancing continued from 9 till 11 o'clock. Variety entertainment was introduced at intervals, the artists being Mrs. A. H. Spurr and Mr. Ozard, soloists; the Misses Irene and Irene Holmes, tap dancing; and Misses competition dance was an amusing item, the prize being won by Mr. and Mrs. J. Roberts. Brentwood. The ladies of the W.S.W.I. wish to thank all who helped to make the affair a success.
Dr. and Mrs. Allan Fraser entertained friends at their summer home, Mount Newton, on Sunday in honor of Dr. and Mrs. Harvey, guests at the Empress Hotel.

GO VIA N. Y. K. TO THE ORIENT

If you're one of the hundreds going to the Orient this summer, you'll want to investigate N. Y. K. rates and accommodations first.
You'll find rates are low—to Yokohama, first class, only \$290 round trip, sailing April 28, May 12, or June 26. Or go on the splendid Siberia Maru, May 28, \$490 round trip. These are large, steady steamers with excellent outside staterooms.
Tourist cabin rates, round trip to Yokohama, are from \$220 to \$250. This is a brand new class of popular-priced quality travel.
Reservations are being made now for the maiden voyage of the luxurious new motorship Hikawa Maru, leaving Seattle and Victoria June 17. Round trip to Yokohama \$260.
Fares to other ports of call in proportion to above rates.

INCENDIARY FIRE AT SPEED TRACK

Part of Grandstand at Daytona Beach Goes Up in Flames
Daytona Beach, Fla., April 2.—Fire which police believe was of incendiary origin late last night destroyed part of the grandstand at the Ocean Speedway here from which spectators witnessed the fastest speed ever attained by a human being on the ground.
Half of the stand which had a seating capacity of 2,500 went up in flames but one end of the building was saved.
Firemen said footprints were found behind the stand which they said were made by someone carrying kerosene cans. A night watchman said flames burst out soon after two men drove up to the stand around midnight.
The Silver Bullet, speed car owned by Kaye Don, British driver, who is here in an effort to break the world's speed record of 131 miles per hour, was not in the stand. It is kept in a garage downtown.
The timing stand and instruments of the American Automobile Association were saved.
Don made one trial yesterday but abandoned the effort because of rough beach conditions. Later he announced indefinite postponement of his trial run. He said the beach probably would not be in condition for a week or longer.

LIBERALS AID LABOR'S VOTE

Passive Stand on Coal Mines Bill Makes Government Majority Safe
London, April 2.—At least a temporary working arrangement was inaugurated between the Labor Government and the Liberals of the House of Commons yesterday evening in regard to the Government's Coal Mines Bill.
Sir Herbert Samuel, the chief Liberal spokesman, declared that while the Liberals disliked many provisions of the bill they deemed it their duty at the present juncture to take no action which would tend to create a grave political crisis.
The Liberals abstained from voting yesterday on several amendments and the government was thereby enabled to obtain majorities in the neighborhood of fifty. Thus it seems as though the greatest immediate danger of the Labor administration in the House of Commons has been averted.

Frank Morris Named Assistant To F. C. Green

With the appointment of F. C. Green as surveyor-general of British Columbia to succeed the late J. E. Umbach, follows the announcement by Hon. E. P. Burden, Minister of Lands, that Frank O. Morris will be assistant surveyor-general of B.C.
Mr. Green was a partner of Mr. Burden in the surveying profession and has for years been considered the leader in the surveying and allied engineering profession.
Mr. Morris has been with the Lands Department since 1907, and under Mr. Umbach he held the post of chief draughtsman. The new office created for him is in recognition of the principle of promotion for civil servants of ability and long service, in view of the fact that a man outside the service was appointed to the chief office.

Delegates For Convention Are Named By Branch

Delegates to the annual provincial convention of the Canadian Legion.

DOCTOR ARRESTED

Bentonville, Ark., April 2.—Dr. A. J. Bass of Columbia, Mo., who identified the body of a man found slain near Gravette last Saturday as William Folts, late yesterday was arrested on a first degree murder charge. Officers said they had learned Bass was beneficiary in life insurance policies of \$200,000 carried by a man named Folts.

B.E.S.L. at Nelson in June were chosen

by the Britannia branch here yesterday evening. Thomas Dempster, president of the branch; W. G. Stone and N. B. V. Saunders, with F. G. Mulholland as alternative, were named.
Fifteen new members of the branch were initiated. Several matters dealing with the welfare of ex-service men were discussed.

THE ST. LAWRENCE PROJECT

IN THE LIGHT OF HIS OBSERVATIONS during the debate on the Speech from the Throne at Ottawa it is clear that the project for the deepening of the St. Lawrence has the hearty support of Mr. R. B. Bennett. The opposition criticized the expenditure on the deepening of the Welland Canal to accommodate ships drawing twenty-five feet of water in view of the fact that there is only seventeen feet depth in the St. Lawrence. Mr. Bennett wanted to know from the Prime Minister, therefore, if the government is entering into the necessary arrangements with the United States government for joint action in dredging the river so as to give it the additional depth, and thus assure the full benefit of the new Welland Canal.

The leader of the opposition made it clear to the House that he was considering the matter from an engineering standpoint, emphasizing that the St. Lawrence "is an international waterway," but "we cannot change the channel ourselves," but "only by arrangement with the neighboring government." With this in mind, Mr. Bennett pressed for information. Illustrating his point still further, the opposition leader referred to money being expended upon terminals at Prescott, "which," he said, "cannot be reached by ships drawing more than seventeen feet of water." That expenditure, as well as the expenditure on the new Welland Canal, he argued, would not be fully justified by the facilities such works provided until international action had been taken in the matter of dredging the St. Lawrence. Mr. Bennett's own words on the subject, as recorded in Hansard, February 24, 1930, pp. 23 and 24, are as follows: "What are you going to do about it is the question I am asking the government? Are arrangements being made with the American government to assist in dredging the St. Lawrence river? It is an international waterway, and we cannot change the channel ourselves, we can do it only by arrangement with the neighboring government. I repeat, has any arrangement been made, or are any negotiations in progress to this end?"

The suggestion which has been advanced in some quarters that the business of deepening the river should be an all-Canadian project is effectively disposed of by Mr. Bennett. He agrees with the government, of course, that it is an international matter.

THE ALL-IMPORTANT LOAF

THE ESQUIMALT BOARD OF TRADE claims that a barrel of flour costing \$5.60 is sufficient to produce 280 sixteen-ounce loaves, retailing at ten cents apiece and returning \$28. It wants to know why there is a spread of \$22.40 between the price of the principal ingredient and the selling price of the finished product. The committee of the board which has been conducting investigations expects the other boards of the Island to interest themselves in this important subject with a view to concerted action.

Even making all allowances for a difference in the methods of production, wage scales, delivery costs and such other factors as may have a bearing upon the comparison of the retail price in Canada and Great Britain, the housewife still can not understand why sixteen ounces of bread retail in Canada—the country in which the wheat is grown—for ten cents and in Britain for four and one-half cents. Perhaps we shall learn more about it some day.

A DIFFICULT PROBLEM

THERE ARE CERTAIN ASPECTS OF British Columbia's war on tuberculosis which are not explained in the bare statement that the death-rate from the malady in this province is the second highest in the Dominion. While it is admitted that the death-rate, according to the latest statistics, is 108.2 per 100,000 of the population, it should be observed that deaths among Indians account for no less than 35.2 per cent of this total. The province, of course, is not responsible for their care or supervision, and the rest of the population, including the Chinese, Japanese and East Indians with a tuberculosis death-rate of twice that of the white, has a death-rate per 100,000 of approximately seventy. When these facts are taken into consideration, therefore, the record for the province appears much more favorable.

In addition to being obliged to include the deaths from tuberculosis among the Indians, the Provincial Board of Health must recognize the fact that many cases are sent to British Columbia on account of its favorable climatic conditions. In addition to this, moreover, should be added the fact that in the Sanatorium at Tranquille no fewer than 400 cases of returned men, who were demobilized in British Columbia, have been treated, yet not one of them originated in this province. On the subject of federal responsibility for the Indian population we find this reference in the latest report of the Provincial Board of Health:

The province is not responsible for the care of the Indian population, and it is becoming more and more evident that the Federal Department of Indian Affairs will have to devote particular attention to the tuberculosis conditions among the Indians in British Columbia. While the Federal Indian Department is devoting much time and money to the care of sickness among the Indians, they have not as yet considered nor adopted means whereby preventive measures may be instituted.

It has been suggested that an urgent need is a sanatorium for the exclusive use of the Indians, while it is obvious that unless more accommodation for the treatment of the malady among the white population shall be furnished at an early date, much of the preventive work now being done by the province will not be as effective as it otherwise would.

A recent pamphlet issued by the Canadian Tuberculosis Association contains figures relating to the death-rate in the various provinces, and the question

as to the efficiency in results as between state institutions and those under provincial committee control does not prove predominance benefit from either one. It then is pointed out: "It is hardly fair to compare the results as between British Columbia and Saskatchewan when you take into consideration the fact that British Columbia has not developed the number of tuberculosis cases that has been developed in Saskatchewan. Saskatchewan is not considered a health resort; British Columbia is. In British Columbia not only the deaths amongst the Indians, over whom we have no control, are charged against us, but we have to add to this the large number of cases that come to British Columbia, as is evidenced by the figures mentioned above in connection with the returned men."

The following table shows the number of ex-service men pensioned for tuberculosis and now residing in British Columbia:

Year ending March 31, 1923	435
Year ending March 31, 1924	420
Year ending March 31, 1925	427
Year ending March 31, 1926	438
Year ending March 31, 1927	457
Year ending March 31, 1928	467
Year ending March 31, 1929	459
At December 31, 1929	471

What is necessary to induce Legislatures to consider the problem of tuberculosis as one of urgent importance is a better understanding on the part of the public of the dangers to which it is exposed while so many cases have not had the benefit of institutional treatment, which means that they know little or nothing of how to take care of themselves, or how to avoid passing on their complaint to others.

THE WRONG WAY

THE MANCHESTER GUARDIAN SAYS Mr. Winston Churchill's recent speech in the House of Commons on the navy estimates seemed to indicate that the former Chancellor of the Exchequer had forgotten that the naval conference is a disarmament conference and not a parlor game in which the winner stands to sacrifice nothing. His comments follow:

In his speech on the navy estimates he rebuked the government roundly for entering the naval conference with its minimum needs honestly stated as the basis of negotiation. He suggested that they ought to have followed the example of some of the other powers and presented a maximum programme as the basis of discussion. A minimum programme is by definition a programme which just safeguards our national needs in the world as it is at present. Anything more than that is unjustifiable extravagance for a pacific power. It follows that a maximum programme is a bluff which has to be called before it is possible to get down to the business of disarmament. As all disarmament only begins when initial minimum programmes are lowered, as they can be safely lowered in proportion and by agreement. The difficulties of the naval conference are due to the fact that other European powers have followed or anticipated Mr. Churchill's advice and pitched their programmes impossibly high. The slender chance of real disarmament depends on the possibility that these excessive claims may be reduced and a fair basis found for proportionate reductions.

These comments are nearly three weeks old. What has transpired in the meantime bears out what the Guardian predicted. The delegates still are wrestling with the maximum conditions which France has laid down, the modification of which apparently is to be purchased by certain commitments that are not at all popular with either Britain or the United States.

THE REDOUTABLE JONES

NOT SO VERY LONG AGO IT WAS being suggested that Mr. Robert T. Jones would have to give more time to his law practice and considerably less to golf. This was followed by the virtual disappearance of the Atlanta wizard from the tournament lists and the wise cns began to wonder whether his broying among legal tomes would have any effect upon his game. Speculation was heightened as soon as it became known that he would take the Walker Cup team over to Great Britain as its captain. Would he be able to produce the game which has put him in a class by himself? Well, he has answered all the questions; he showed a gallery of 3,000 spectators yesterday that about all he required to maintain his official rating was a little practice, for he led the field of professionals and amateurs in the southeastern open tournament at Augusta by the almost phenomenal margin of thirteen strokes, the second place falling to Horton Smith. So, if there are any amateurs or professionals nursing the idea that Mr. Jones of Atlanta has slipped at all, they will have to revise their ideas in view of his performance this week.

WHAT OTHER PAPERS SAY

"CERTIFIED GRAPE"
The Providence Journal

(The United States Department of Agriculture issues inspection certificates to California growers of "juice grapes," certifying the sugar content. "Juice grapes," in pre-Volstead days, used to be called "wine grapes," and the sugar content is indicative of the value of the grapes for wine pressing.) Eleven years ago the growers of wine grapes were content with a price of \$10 a ton, but the growers of "juice grapes" are said to have enjoyed a profit of never less than "seven times what it was before prohibition." One readily comprehends why the California grape growers are almost unanimous in their enthusiasm for the noble experiment.

1930 WHEAT ACREAGE
The Saskatoon Star-Phoenix

It will be interesting to see if the farmers of Canada take the advice offered to United States wheat raisers by Mr. Legge, the chairman of the United States Farm Board, and reduce the amount of wheat acreage this year. However, this cannot be a general situation, for a great many farmers in the west have got to have some cash revenue this year, and much as lessened production might be of value in increasing the price of wheat produced, such a reduction would have to be on such a large scale that it does not appear to come within the range of practical possibilities so far as Western Canada is concerned. Whether the farmers of the United States will find it possible to follow Mr. Legge's advice remains to be seen.

A THOUGHT

And he said unto them, Exact no more than that which is appointed you.—St. Luke III 12.
No legacy is so rich as honesty.—Shakespeare.

Loose Ends

The golfer's horrible secret is out—and it will shock his wife—Whiskey Creek remains White-Creek, as it should—and Mr. Shaw produces a ponderous paradox.

By H. B. W.

ONE KNEW instinctively that there must be some catch in this universal golf urge, namely, greed, which the poor, deluded victims of the game were shielding from the uninitiated. Well, it is out at last, thanks to The New York Times, which is bold enough to bare the facts for the first time. What The Times has revealed about the secret cost of golf will be a staggering blow to the housewives and home budgets of America, and as these figures, I suppose, hold with some variation in most places, they must be recorded here in the interest of truth and economy.

SO THAT the accuracy of these statements may be unquestioned The Times is careful to explain that no golfer ever knows how much golf costs him, and is careful to see that he does not know it, or, worse still, if his wife finds out, probably he would have to give up golf altogether. We need not expect golfers, therefore, to credit the figures which The Times has so diligently prepared, but as between The Times and the average golfer the unprejudiced layman has no difficulty in preferring the former. Its figures, then, show that the average American golfer spends \$600 a year for the privilege of pursuing the white ball around the field, this sum being divided as follows: Dues \$175, taxes \$157.50, locker \$10, caddies \$80, tips \$40, clubs, new and cleaning, \$50; balls, etc., \$20; transportation, gas, etc., \$50; items discreetly described as "ginger ale, etc., \$57.50; total \$600. The argument of golfers that they pay for many of their expenses by their little bets at so much a hole is exploded by The Times, which proves by statistics that over a year the average golfer only breaks even on this account.

NOW ALL this will be shocking news to most people, no doubt, but it is time the facts were revealed. At this time of year they should be useful indeed to mothers of large families who find it difficult enough to pry enough from the family bank-roll to buy spring clothes while the poor, down-trodden bread earner is squandering his income on the most expensive of our modern vices.

THE UNITED STATES has been agitating itself lately over a question of direct interest to us in British Columbia. In August County, Virginia, there is a town of Churchillville, and since there is a "Creek" town since revolutionary times as Whiskey Creek. Over this river the government is about to erect an expensive bridge, and the ladies of the Churchillville Community Club have determined that it shall not be decorated by bearing the name of "Whiskey." Instead they insist that the river which is to be bridged by the new bridge shall be called henceforward "Castle Creek." The friends of the old name have rallied stubbornly to its defense and have prepared many ingenious arguments, most of which is that of one, C. M. Ritchie. Mr. Ritchie advances the deplorable argument against "Castle Creek" that "when one thinks of a castle there is sure to flash into the mind pictures of drunkards, robbers, dark dungeons of death and murder. Between these two opposing sides there has issued a controversy, which has found its way prominently into the New York papers and immortalized Whiskey Creek in the memory of the nation.

THIS SHOULD be a lesson for those who would like to change many of our good old place names. We, too, have a Whiskey Creek, in East Kootenay, and no vandal has dared to lay violent hands on the name which the first prospectors gave it. In that same district is a Hell's Roaring Creek which, likewise, is sacred to the memory of the pioneers. There is also a Devil's Cauldron on one of the interior rivers and a creek near old Fort Steele bears a name well known in the district, which cannot be written in a respectable column like this. At the side of the Cariboo Road, near old Barkerville, there is a black, sinister-looking body of water called Jack o' Clubs Lake, which could not have been better named, even though it perpetuates the gambling of the gold rush days. These were the names given to our country by the men who first found it, and the names were rough, as were they. Our younger generation has no right to cast hypocritical reflections on these men by altering the names which they chose, usually with good reason.

GEORGE BERNARD SHAW, whose opinions on any subject at all are always news, even if they are un sound, has lately been discussing the liquor problem. In a word, he asserts that if the law wishes to abolish drunkenness it must first place of liquor to the average man in place of liquor, for "to the poor man liquor is the chloroform that allows him to endure the painful operation of living." Incidentally he upholds his theory by referring to liquor conditions in Canada under government control. "When winter comes from October to May 1 in lonely pioneer lands, without culture, without art, without civilization, many people would go mad without artificial self-satisfaction from the distillery," he says. He suggests, therefore, that the state must give men athletic sports, theatres, other amusements and services and then they will not require alcohol.

THIS theory is sound, it raises a very interesting question in Canada which Mr. Shaw apparently does not grasp. The provinces of Canada today are financing more and more on the profits of liquor sale. In British Columbia, for instance, about a fifth of

NCE UPON A TIME

Benito Mussolini, now dictator of Italy, was a hodgepodge in Switzerland. It was his first job after he tried of teaching school and began the life of wandering that led to the premiership of his country.

the provincial revenues come from the liquor stores, and out of them the state pays such essential services as education, in part, mothers' hospitals, maintenance, all features of the civilization which Mr. Shaw advocates to stamp out drunkenness. Year by year we are becoming increasingly dependent on the consumption of liquor to supply these things. We have in this country, therefore, a strange and somewhat alarming paradox, and we are providing civilizing influences which will reduce the consumption of liquor but we pay for them by increasing the consumption of liquor. The more we drink the more services we can provide to stop us drinking, but if we stop drinking apparently we can't have the services and, therefore, according to Mr. Shaw, will start drinking more than ever. In handling our liquor problem under Mr. Shaw's theory we seem to be like a small dog chasing its own tail.

The Weather
Daily Bulletin Published by the Victoria Meteorological Department

Victoria, April 2-5 a.m.—The barometer is falling on the northern coast and unsettled weather is spreading southward. The weather is now much clearer to Manitoba.

Reports

Royal Oak Tavern Being Razed For Big Gas Station

The old Royal Oak Hotel, noted as a roadside tavern before the days of prohibition, is being razed to make way to a modern super-service station to be built by the Union Oil Company.

The new super-service station location is opposite the Spanish Municipal Hall.

Hel Peasey, local manager for the Union Oil, also announced to-day the start of the reconstruction of the company's Fountain Service Station at Hillside and Douglas Streets to convert it into a modern super-service station. This will be done at a cost of \$3,000. Townsend and Matheson are doing the architectural work for the two jobs.

Magnesia Best for Acid Indigestion

Warns Against Doping Stomach With Artificial Digestants.

Most people who used to suffer from gas, sourness, bloating and indigestion have now given up disagreeable diets and the use of harmful artificial digestants. Instead they eat their favorite and formerly forbidden foods and after meals take a little Blasted Magnesia—either tablets or powder—in some water. They have no stomach trouble.

Most so-called indigestion is merely "too much acid" in the stomach. Food acids and ferments before it can be digested. Gas forms. The stomach needs an alkaline to give safe, certain and speedy relief. Blasted Magnesia instantly neutralizes excess stomach acids, sweetens the food contents, ends gas and bloating and quickly stops stomach pain. Then digestion becomes easy. It is a safe, pleasant and convenient method to use, and druggists everywhere sell it on a positive guarantee of satisfactory relief or money back. Try a test package on this plan, and enjoy your meals with no more fear of indigestion. (Adv.)

MANY ENTRIES AT WORLD SHOW

British Columbia Poultrymen to Send Many Birds to Crystal Palace

Tentative plans provide for exhibition, next July, of nearly 150 British Columbia birds at the Crystal Palace, London, during the sessions of the World's Poultry Congress. J. R. Terry, provincial poultry instructor, reported yesterday after attending a meeting in Vancouver of the British Columbia provincial committee of the World's Poultry Congress.

In addition to the live birds to be shown, British Columbia will be represented by an educational display prepared by the Record of Performance Poultry Breeders' Association, and the British Columbia Egg Pool will contribute towards a display to be organized by the Canadian Egg Pool.

The meeting in Vancouver on Monday was attended by F. G. Elford, of Ottawa, president of the World's Poultry Congress, and the following: Professor E. M. Straight, of the Sidney Experimental Farm; J. R. Terry and W. W. Laing, of the Department of Agriculture; W. H. Hicks, superintendent of the Agassiz Experimental Farm; Thomas Somerville, president of the British Columbia Poultry Association; Professor E. A. Lloyd, professor of poultry husbandry at the University of British Columbia at Point Grey; G. E. Wilson, Dominion poultry promoter for British Columbia; Samuel Shannon, ex-president of the Record of Performance Poultry Breeders' Association; H. E. Upton, R.O.P. inspector; and G. M. Brown and A. Leitch, of the British Columbia Egg Pool.

TANLAC ENDS ANOTHER CASE OF RHEUMATISM

and Stomach Troubles—Hotel Man Benefits This Time

Ending the suffering of 10 years in just a few weeks is going some, but that's just an example of how quickly Tanlac works in stubborn cases that never yield to other remedies.

CAN'T DO WITHOUT KRUSCHEN

Canadian Traveller's Tale

"KRUSCHEN KNOWN THE WORLD OVER!"

Read this romantic story of a Canadian "globe trotter" who, wherever she went, found Kruschen Salts on the breakfast table. In the backwoods of the Australian Bush, in New Zealand, in the Fiji Islands, they all take their "daily dimef." What further proof could be asked of the beneficial efficacy of Kruschen?

Rivercourt, Toronto, 6, Ont.
"I feel I must write you of your wonderful Kruschen Salts. I have used them for 4 years now, and I would not be without a bottle in the house for worlds. I also give them to my three children, ages 2, 4, and 9 years."

"In the first place I was away in the backwoods of Western Australia (the bush) and I went to the doctor there and complained of my kidneys and he advised Kruschen and the store in the village sold it. I was surprised. I've been 200 miles up country and yet practically all the settlers there had their Kruschen on their breakfast table. From there I came to Canada via New Zealand and Fiji Islands and I saw your Kruschen advertised. It is known the world over."

(Mrs.) F. Bonn.
The secret of Kruschen's success is because, being a combination of six salts, it attends to all the needs of the

system—of stomach, liver, kidneys, nerves, blood and brain. Start on Kruschen to-morrow—we show you here how you can make a trial at our expense.

FREE TRIAL OFFER

If you have never tried Kruschen try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claim for yourself. Ask your druggist for the new "GIANT" 75c. package.

This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorized to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Established 1756). Importers: McMillan Bros. Ltd., Toronto.

Garden City

An enjoyable evening was spent on Friday in the Marigold Hall, when the regular card party was held.
Seven tables engaged in play, the

first prizes going to Mrs. Neiligan and Mr. Wilkinson; second prizes, Mrs. France and Mr. Longland; consolation, Mrs. G. Hancock and Mr. Moulton.
Mrs. Gilson acted as convener, while Mrs. Wilkinson and Mrs. Ross were tea hostesses.

BELLE BAKER IN
LEADING ROLE OF
"SONG OF LOVE"

Although Belle Baker, the star of "Song of Love," the Columbia musical drama now playing at the Playhouse Theatre, never set foot on the professional stage outside the United States, she is known from end to end of Europe to the other. The following incident publicized her talent.

In 1925 Miss Baker and her husband visited Paris on a pleasure trip. They dined one evening at Harry Piller's famous Accacias Club, a rendezvous for celebrities from all over the world. Among the guests on this occasion were many distinguished New Yorkers. Someone espied Miss Baker and asked her to sing. She won fame throughout Europe through her singing.

TOBY LEITCH PLAYS
ROLE OF ARIZONA
IN VARIETY PLAY

The excitement of a Wall Street panic is graphically portrayed in the three-act comedy-drama success, "The Dollar Mark—The Wall Street Crash," in which the Toby Leitch Players appear at the Variety Theatre this week. In the role of Toby Potter, rough and ready Arizona whose keen brains are more than a match for the financial wits of Wall Street, Raymond Toby Leitch makes a spectacular hit. Toby is screamingly funny in this unusual character part.

The play depicts the manner in which the fortunes of Allen Crane and his father, Dick Crane, are brought to the very brink of ruin through Dick's speculation. Only the vast fortune of Allen's wife, Leach Crane, can save them from disaster. But Dick has snubbed this beautiful untutored girl from the west and Allen has snubbed her family.

NORMA TALMADGE'S
THEME SONG PRODUCT
OF FAMOUS WRITERS

"A Year From To-day" written by Al Jolson, Ballard MacDonald and Dave Dreyer, is the official theme song for Norma Talmadge's starring debut in talking picture, "New York Nights," running at the Capitol Theatre for the last time to-day. Dreyer, ace of song writers, who collaborated with Jolson in creating such famous hits as "There's a Rainbow Round My Shoulder," "Me and My Shadow," "Back in Your Old Back Yard," "Evangeline," and a score of spontaneous successes, was engaged by Director Lewis Milestone to supervise the sequences featuring the number.

PICKPOCKET ON
DEVILS ISLAND IS
SHOWN IN FILM

When Ronald Colman's first all-talking picture, "Bulldog Drummond" was shown, it did not seem humanly possible to improve on this great production, and yet in his newest picture, "Condemned," which had its local premiere Monday at the Dominion Theatre, Ronald Colman has reached still new heights of artistry and dramatic savoir faire. Once again Colman is seen as the romantic, yet loquacious lover, among settings the like of which never have been seen on any screen before. In "Condemned," he is seen as a French pickpocket who is deported to the notorious French penal colony, Devil's Island. Here are shown the tortures inflicted on the inmates, the drama of prison life, and the thrilling unrest ever present among the convicts.

"STREET ANGEL" IS
ACCLAIMED GREAT
TRIUMPH OF SCREEN

"Street Angel," Fox picture, featuring Janet Gaynor and Charles Farrell, ran for eleven weeks at the Theatre on Broadway, New York. Critics and public alike proclaimed it one of the greatest screen achievements in years. It is being shown at the Columbia Theatre.

MYSTERY PLAY AT
ROYAL APPEALS TO
LOCAL AUDIENCE

After three weeks of comedy, a mystery play is once more holding the boards at the Royal Theatre. "The Whispering Gallery" is in many ways the most thrilling play that the Gordon McLeod Players have presented, and is evidently appealing to Victoria audiences. Although it is a mystery play of the first order, there is a large vein of comedy running throughout so that thrills and laughter alternate. The two comedy parts are in the hands of Roland Gillett, and Claude Bailey, who keep the audience in roars of laughter. A specially effective role is played by George Durham as Morgan, the faithful old servant. Gordon McLeod beside being responsible for the production and stage effects, has a strong, although small, part as Martin Connelly. Lilian Christine as Lady Elliott is admirable and Peggie Burnham as the young wife of Jim Stowell is excellent. Ernest Bodkin, Ann Farrer, Harcourt Aubrey and C. Ridge complete a very strong cast.

Royal Oak

Mr. and Mrs. Gibson of Vancouver were the week-end guests of Mr. and Mrs. W. Quick, Wilkinson Road. Miss E. Mason returned to her home in Vancouver on Sunday after spending the last week as the guest of Mr. and Mrs. S. L. Butcher, Wilkinson Road.

Mrs. Campion of North Vancouver, and Miss Della Peddie of Russell, B.C., are the guests of Mr. and Mrs. A. E. Campion, Wilkinson Road.

Mrs. Blisset and family have moved into Mr. Grant's house on East Saanich Road.

Langford

The opening dance at Langford Lakeside will be held next Saturday at 9 o'clock, with music by Hunt's Orchestra.

A piano demonstration by Mrs. Horace Simpson's pupils will be held in the school on Friday afternoon, at 3:30 o'clock.

DUTCH GROWERS
WILL BE JUDGESAnnual Spring Flower Show
Will Be Held at Willows Late
This Month

The fourth annual spring flower show, which is to be held at the Willows on Friday and Saturday, April 25 and 26, by the Vancouver Island Horticultural Association, is to be well in advance of the three previous exhibitions.

This year, through the efforts of Lloyd Taylor of West Saanich, a past president of the association, the judges for the bulb section will be men who are at the head of the bulb growing industry in Holland. Mr. Van Zanten will judge the daffodils and Mr. Van Waveren the tulips.

Both these well-known Dutchmen are establishing bulb farms in the state of Washington to overcome to some extent the restrictions placed upon the import of bulbs by the United States Government. Mr. Taylor went to Portland and obtained their consent to judge the Vancouver Island bulbs at the spring show.

In addition to having these world experts as judges, it is hoped that can be arranged for both Mr. Van Zanten and Mr. Van Waveren to give talks on bulb growing, which should prove of very great value to the bulb growers of British Columbia.

James Island

Mr. and Mrs. James Lynch and Alice spent the week-end at Nanaimo, the guests of Mrs. Lynch's sister, Mrs. W. Logan.

Mr. and Mrs. W. Rivers were week-end visitors to Nanaimo.

Mr. and Mrs. J. McMillan had as their guests over the week-end Miss Elsie Dunham and Archie McMillan of Victoria.

Mrs. Frank Barrie is a patient at the Royal Jubilee Hospital, Victoria.

Mrs. Doran of Nanaimo is the guest of her son and daughter-in-law, Mr. and Mrs. James Doran.

Two teams of James Island bowlers visited Nanaimo and engaged in games on Saturday afternoon and evening, returning home on Sunday. Those who travelled were Messrs. W. Rivers, J. Thompson, R. H. Lyons, J. Lynch, J. Ford, E. Roma, J. Wilson, E. Rivers and W. Norris.

Movie Projectors
To Be Examined
For Public Safety

J. A. Thomas, provincial fire marshal, H. L. Taylor, inspector of theatres, and W. A. Oswald, inspector of electric energy, have been named as a board of examiners under the Moving Picture Act to visit all the theatres in the province and see that the projection machines are safe and that the operators know their business.

An order-in-council has been passed to the act providing that instead of two first-class projectionists being employed in each theatre, it will be necessary to have only one projectionist and a helper in certain cases.

Hydro Directors
Recommend Deal

Hamilton, Ont., April 2.—A meeting of directors will be held as soon as Wm. E. Hughes, president of the Dominion Hydro and Transmission Company returns here from Western Canada. The meeting will consider the offer of the purchase of the company received from the Ontario Hydro Electric Power Commission.

It is learned the directors will recommend acceptance of the \$1,000,000 offer and their recommendation will be passed on for consideration by the shareholders.

Company officials state there is a preference stock issued worth slightly more than \$6,000,000 and bonds \$6,000,000. Notes and the aggregate must be deducted from the purchase price before apportionment of common stock can be estimated.

Had Rheumatism in Back
was Unable to Work

Then Saskatchewan Man Used
Dodd's Kidney Pills

Mr. H. A. Peters is Delighted with the Results Obtained

Leonard, Sask., April 3.—(Special). The sterling value of Dodd's Kidney Pills as a kidney remedy is shown by the following statement from Mr. H. A. Peters of Leonard, Sask.: "I had rheumatism in my back very badly. I couldn't do my work. A friend told me to try Dodd's Kidney Pills. I did so and after a short time I could work again. I always have a box handy."

Backache, bearing-down pains, dizziness, headaches and depression are early symptoms of kidney weakness, too often misunderstood. Weak kidneys go from bad to worse through wrong treatment or neglect. The moment you suspect your kidneys, use Dodd's Kidney Pills to strengthen and restore them.

Dodd's Kidney Pills have built up their reputation as a kidney remedy by relief they give. Insist upon having Dodd's, the Kidney Pills your neighbors use.

DAILY
LENTEN
THOUGHT

By WM. E. GILROY, D.D.
Editor of The Congregationalist

When we speak of the values of life it is worth while to ask what is the value of our own.

How can we best estimate that? The real value is, of course, what God sees in us; but we cannot know just what that is. Would not a very practical estimate of ourselves and our activities be found in seeking the answer to the question:

"What would the world lose if we were suddenly to die?"

Would not many people be startled to discover that in their death the world would not lose very much at all? Someone might mourn for them and some small circle might be affected, but would any good cause or any great endeavor be really worse off, or would the life of anyone in the world be morally and spiritually poorer?

When we put the estimate of our lives in that bald and very practical way we ought to see very readily in what life consists. It is the investment of real living and influence that marks the real worth of our lives, and where there is no such moral and spiritual investment life is the mere semblance of living.

It was this, apparently, that the New Testament writer meant when he spoke of certain Christians as "having a name to live," but being in reality dead.

That man is already dead whose death would mean no loss to the community.

(Copyright, 1930, NEA Service Inc.)

Personal and Societies

FIRST UNITED Y.P.S. DEBATE

Semi-final Between Axioms and Eagles Held Monday

The First United Young People's Society held its semi-final debate night on Monday evening at the Axioms and Eagles. The debate was between the Axioms and the Eagles. The Axioms won the debate.

Curtains, Drapes and Covers
These represent real money, think twice before you trust them to inexperienced persons. Our methods are proven by science, satisfaction is guaranteed.

507 John Street Phone 3350

Trotter and Richard Holmes of the Eagles. The subject for debate, "Resolved: That the Axioms and Eagles plan is beneficial," proved very interesting, humorous and instructive. The judges, Miss J. Mitchell, J. M. Patterson and Robert Wallace, gave the decision to the affirmative, represented by the Axioms. In presenting the decision, Mr. Patterson congratulated both teams on the splendid presentation of their material.

A pleasing variety to the programme was the rendering of two vocal selections by Mrs. Macdonnell, and a group of clarinet solos by Jack Easton, John Gough, who presided, extended the thanks of the society to the judges and the artists of the evening.

Following the devotional period, Dr. Wilson spoke briefly on "The Duties of the Session," the second talk of the series, "Know Your Church."

Rev. Bruce Gray paid a tribute to the members of the Y.P. executive for the splendid way they have carried on and their fine spirit of co-operation. He briefly outlined the meeting for the coming month and urged the young people to maintain the high average attendance of the past winter.

William Erith, of the tennis committee, reported that the plans for the creation of the tennis courts on Caladonia and Cook Streets are well under way. On Saturday afternoon and on the following Wednesday the young people will hold a building bee at the courts. The official opening is scheduled for April 22.

The announcement of the final debate to be held on Monday, April 14, aroused great interest among the young people. The Axioms and Eagles will compete for the silver trophy, their subject for debate being, "Resolved: That missions and the ministry offer greater scope for service than business and professions."

Next Monday night will be "surprise night." The committee in charge is busy making plans and expects a record crowd.

Great interest is being evinced by the Young People's Conference to be held in Duncan on Good Friday. The First United Y.P. are planning to send a large delegation.

The Y.P. Council is making arrangements for a good banquet to be held on Friday, May 3, to which all the United Y.P. societies of the city and districts will be invited.

Daughter of Hon. R. Forke Engaged

Ottawa, Ont., April 2.—The engagement of Marjorie Isabel Forke, second daughter of Senator and Mrs. Robert Forke, to James Caterpole Berg, L.L.B., side-de-camp to His Honor the Lieutenant-Governor of Manitoba, has been announced here. Mr. Berg is the son of the late C. D. Berg and Mrs. Berg of Winnipeg, Man.

YOUR BABY and MINE

By MRS. MARY L. G. GORDON

Mrs. Gordon will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

SHORT WALKS ARE EXCELLENT FOR SMALL CHILD

The present-day pampered child has too much done for him. Streets are full of small children up to three and four years of age, who are bundled into cars and wheeled about all afternoon by devoted mothers or nurses. The child would be much better off if he were running and playing all afternoon than being so inactive. Despite the fact that the child is being filled to his point of bursting with air and sun, his muscles are deprived of much beneficial exercise.

Most children are carried around in buggies, probably because they are less trouble that way. But Mrs. L. L. G. can't so sure that the buggy method of exercise is the right one.

"My little girl is twenty months old, a trifle overweight, but otherwise in perfect health. She has never had a sick day, nor has she had any trouble with teething. Now here is my problem. My mother lives about four and one-half blocks from me, and in this nice weather I have taken her over there, allowing her to walk every step of the way.

"I never hurry or rush her, allowing her plenty of time and when we get home she naps about three hours. She is so rosy-cheeked, that I can't think it harms her, but mother insists that it is too hard on her legs, and that it might make her bow-legged. I have

SHE'S A HE

This charming young "lady" is James Porter, one of the leading players in "Hedda, Hedda," the latest stage production of the Haresfoot Club of the University of Wisconsin, which tours the middle west this spring. "All our girls are men, yet everyone's a lady," boasts the Haresfooters.

NURSES TO HAVE SHORTER HOURS

Rates Also Set For Ten-hour-day in Private Nursing

Vancouver, April 2.—A new schedule of rates and hours of duty for nurses is announced as effective to-day by Mrs. Margaret Duffield, president of the Vancouver Graduate Nurses' Association. These regulations were approved on January 1, but were deferred pending the hospital survey until April 1. They do not apply to nurses in training or to staff nurses at hospitals.

Henceforth nurses will work only a 10-hour duty for the day rate of \$5 for medical and surgical cases; although they can be employed to work twelve hours' duty for \$6 in ordinary cases. Special rates are provided for maternity, mental, infectious or alcoholic cases.

Under the new schedules when two nurses are employed for a case, the day nurse will work from 8 a.m. to 6 p.m. and the night nurse from 8 p.m. to 6 a.m. During the intervening hours between shifts, the patients will be left in charge of the ward nurse. If the patient is at home the nurse will not leave the patient without supervision.

Public Invited To Scout Headquarters Opening Thursday

H. T. Ravenhill, Scout leader for Victoria, has issued an invitation to the general public to attend the opening of the new Scout headquarters at 1034 Johnson Street by His Excellency the Governor-General at 6:15 o'clock Thursday evening. The programme for the function will be announced later.

Typographical W.A.—The Women's Auxiliary to the Victoria Typographical Union will hold a progressive and hundred party on Saturday evening at the home of Mr. and Mrs. F. A. Griffiths, 3223 Quadra Street, to which members and friends are invited.

Can Youth Be Regained?

Common sense tells us there is no magic "fountain of youth." No will intelligent men and women resort to the false stimulation of dangerous drugs. But if you are sincerely interested in the important problem of regaining and maintaining all the vitality of youth to a ripe old age you will find definite help in this practical method which explains the much mooted Endocrine Gland System which is entirely responsible for your physical well-being—your mentality, whether brilliant or dull. These conditions can now be controlled and are, in fact, important for your life's welfare! Results are really astounding. Do you know why the Pituitary Gland governs success or failure? How you can reduce or gain weight without the aid of drugs, how to retain or regain comfortable effortless vision without the use of spectacles? Your first duty is to yourself. Are you getting the most out of life?

If not, there is a way for you to do so.

Don't plod on discouraged even one hour more. ACT RIGHT NOW.

SECOND READING GIVEN ONTARIO DIVORCE BILL

Opponents of Measure Lose Motion For Six Months' Hoist

Ottawa, April 2.—A majority of thirteen votes carried the Ontario Divorce Bill, sponsored by Mr. J. S. Woodsworth, Labor member for Winnipeg North Centre, through second reading in the House of Commons last night. The division on the second reading resulted in an even hundred of the members present voting for the bill while eighty-seven were opposed.

The division on the second reading resulted in an even hundred of the members present voting for the bill while eighty-seven were opposed.

The division on the second reading followed a last-minute effort of the opponents of the measure to kill the bill. George Spotton, Conservative member for North Huron, moved the six months' hoist. His second was M. J. Heppburn, Liberal member for West Elgin. This motion, however, met with defeat by the same majority that later on gave the bill approval. The House divided, for eighty-five, against, ninety-eight.

LEADERS ALLIED

The leaders of both the principal parties in the House, Premier Mackenzie King and Hon. R. B. Bennett supported the motion for second reading of the bill. They also voted against the motion that it be read "this day six months." Their followers, however, split. Unanimous support for second reading came from the Progressives, U.P.A. and Labor benches.

The Woodsworth bill has reached its present standing only after a somewhat hectic career in the House. There have been five division already in connection with this measure. It was defeated on second reading by the narrow majority of one vote. Subsequently a motion to have it replaced on the order paper carried again on division; then came another amendment, which regretted the spread of divorce in Canada, and which met with defeat. The remaining two divisions took place last night.

The bill will now be considered in committee.

WOULD RELIEVE SENATE

Mr. Woodsworth's bill, as it stands at present, would, if passed, have the effect of setting up a divorce court in the province of Ontario, similar to the tribunals which function in this connection in six of the other provinces. At present, applicants for divorce, who are resident of Ontario, Quebec and Prince Edward Island, are required to obtain dissolution of their marriage by act of parliament. Their bills are first considered by a committee of the senate, and are brought down from the upper to the lower house. Mr. Woodsworth's measure would relieve the senate of that duty insofar as Ontario application are concerned.

Debate last night was brief, there being only two speakers, J. S. Woodsworth, Liberal, Mowat and George Spotton, Conservative, North Huron. Mr. Woodsworth declared that paid agents were employed in divorce proceedings to gather evidence against one or the other litigant and that when the case came to parliament a great deal of lobbying went on among members. He did not agree that the establishment of divorce courts encouraged divorce, and emphasized the limitation of parliament in that matter of awarding custody and the custody of the children.

Mr. Spotton could not understand why members from other provinces wanted to "thrust" a divorce court on Ontario before that province had expressed itself on the matter. He urged that the members from western Canada be careful of sending such a solid bill to parliament to destroy all that was sacred and good in the homes of Ontario.

STRAWBERRY VALE W.I. LEARNS OF SOCIAL SERVICE

The regular monthly meeting of Strawberry Vale Women's Institute was held on Tuesday afternoon with the president, Mrs. Foster, occupying the chair and a good attendance of members.

An interesting event has been planned in the giving of a dinner, cooked entirely by the new "waterless" cooking method, which will take place at the Institute Hall at an early date.

Dr. Wace sent a letter explaining the position of the institute and their obligations to support a child whom they may wish to send to the Solarium. "Any institute in B.C. may recommend a child to the Solarium without incurring any financial obligations whatsoever. It has never been the policy of the directors to ask for assistance either in the direct case, or in the form of annual donations, other than that the institutes feel they can give of their accord." Dr. Wace also expressed the wish that members of the institute would look for and advise him of any crippled child requiring help.

A generous sized packet of antirrhinum seed grown at the Experimental Farm, Sidney, was received for distribution among the members.

At the conclusion of the business, Miss Snyder gave a most interesting talk on the work of the Social Service League, showing how some of the changes of environment have worked wonders in altering the habits and propensities of children, and that in some cases the quality of the help given is not always material, but a sympathetic understanding and guidance in their affairs. Miss Snyder also spoke of the physical benefit derived by the children and their mothers at the Sunshine Camp, and of the grateful appreciation shown by those who have been fortunate enough to spend a much needed holiday there.

Miss Snyder and Miss Cheekery were entertained to tea by the members, and a hearty vote of thanks given the speaker. Mrs. Williams, Mrs. Austin

and Mrs. Humphries served delicious refreshments, and a pleasant social half hour was enjoyed.

The last card party of the season will be held at the Institute Hall on Monday, April 7 at 8 o'clock, when a record attendance is hoped for. Refreshments will be served and good prizes given.

BEYOND HIM

Wife—When you've had a few whiskies-and-sodas you ought to realize you've had an awful lot of fun for some harmless drink like-sarsaparilla.

Husband—Yes, my dear, but the difficulty is that when I've had a few whiskies I can't say sarsaparilla.

What date is Your Birthday?

If it's soon, better warn dad right away that you want a bicycle more than anything else. Tell dad how popular C.C.M. bicycles are today with boys and girls. Tell him names of your friends riding bicycles. Ask him to go with you to see the model you want, or show him the picture of it in the C.C.M. catalogue. Get dad interested now, and we feel sure he will give you a C.C.M. on your birthday.

6 Big C.C.M. Features

There are many more points of superiority than these six big features, but, judged by these alone, the C.C.M. is the "King of Bicycles."

1. C.C.M. 20-year Nickel Plating.
2. C.C.M. Triplex Crank Hanger.
3. C.C.M. Improved Hercules Coaster Brake.
4. Three Coats of C.C.M. Enamel baked on over a Coat of Rust-Proof.
5. Gibson Pedals (on most models).
6. Dunlop Tires.

Your nearest C.C.M. dealer will give you the new 1930 catalogue or write to Canada Cycle and Motor Co., Limited, Weston (Ontario), Montreal, Winnipeg or Vancouver.

Now selling for dollars less than last year. In fact, the lowest in thirty years. Easy terms, too, if desired.

LOCAL HEIFER CARRIES HONORS

Murray Turner of Cadboro Bay Shows Grand Champion at Calgary

Calgary, April 2.—"Alberta Model" eleven-month-old purebred Shorthorn heifer, brought from Cadboro Bay, British Columbia, by her youthful owner, Murray Turner, was declared the grand champion baby beef entry at the spring show yesterday afternoon, following judging of girls' and boys' heifer and steer classes. Sid Brown, Brandon, exhibited a grand Shorthorn to win the steer championships, and Alfred Lowen, Acme, purebred Aberdeen Angus, to take second place. Second position in the heifer competition was secured by Jean Ramsay, Simons Valley, with a grade Angus. Not to be outdone by her sister provinces, Alberta, represented by Margaret Roper, Lacombe, took the supreme honors of the show with a grade Hereford steer. The Roper entry was declared from competition with the baby heaves by weight specifications, but was an easy winner in the open classes. Margaret Roper's brand champion steer topped the sale when it was purchased by Burns & Company at 65 cents per pound. The steer weighed 1,020 pounds. The Turner heifer went to Eaton's at 50 cents, being weighed in at 840 pounds, and Jean Ramsay turned her 880-pound second prize heifer over to the same firm at 30 cents.

TO SEPARATE JEW SCHOLARS

Quebec Legislature Passed Bill For Montreal Island Students

Quebec, April 2.—By a vote of 52 to 5 the Quebec Legislative Assembly last night approved of giving separate schools to the Jewish population of the Island of Montreal. Hon. Athanasius David, Provincial Secretary, explained the bill and said it spoke for the attitude of toleration which this province has always taken as regards minorities. Premier Taschereau made it clear he stands against the neutral school, and for this he also favored the bill. He hoped if Jewish schools are established they will be along lines of good Canadian thought. "I hope the speeches of this evening, and the work we are doing, will reach as far as Saskatchewan, as far as the ears of Premier Anderson, and that they will give the minority there what we are giving to the Jews of Quebec," said Premier Taschereau in closing his speech.

JAPAN APPLAUDS U.S. FRIENDSHIP

Favorable Attitude and Recognition Features Aiding Naval Agreement

Tokio, April 2.—The newspaper Nichi-Nichi today gave prominence to an article asserting that the fundamental reason for the cabinet acceptance of the Reed-Matsuda formula of American-Japanese naval armaments was found in recent evidence of United States recognition of Japan's position of preeminence in the Far East.

Authoritative United States assurances, the paper said, of a more favorable attitude towards Japan's desire for an alteration of the United States law excluding Japanese immigrants, also played an important part in the acceptance.

Nichi-Nichi referred to the address of United States Ambassador William R. Castle Jr., on February 3, as the outstanding statement of this friendly United States sentiment toward Japan. The Ambassador's reference to Japan's leadership in the Orient and the need of United States-Japanese co-operation in respect to the growth of China, it was said, had been repeated by Secretary Stimson to the Japanese chief delegates, Admiral Wakatsuki at London.

DEFINITE RECOGNITION
Nichi-Nichi said that never before had United States spokesmen accorded such definite recognition of Japan's position. The paper added that "the assurances of the United States Government's sentiments and policy by that government's highest representatives on questions which hitherto have constituted a barrier in Japanese-American diplomatic relations, could not fail to strongly appeal to Japanese authorities and the acceptance of the London formula as the basis for the vernacular newspapers' editorial comment generally approved the government's decision although with undertones of criticism and uneasiness over alleged sacrifices of minimum needs for national defense.

SCORNS REQUEST OF UNEMPLOYED

Demands Ridiculous, Says Edmonton Mayor to 650 Marchers

Edmonton, Alta., April 2.—Unemployed led by Communist organizers marched 630 strong to the Legislative Buildings and Civic Block here yesterday afternoon. At the Parliament Buildings the marchers were told that their demands would be placed before the Legislative Assembly this afternoon. At the city hall their reception was not so cordial, Mayor Douglas telling them that their requests were unreasonable and bordered on the ridiculous. Work at union wages or full maintenance at the rate of \$25 per week for married men and five dollars for each child under sixteen was asked. Also \$13 per week for single men, free light, heat and gas. They also demanded non-eviction for non-payment of rent and abolition of the vagrancy law.

Hazardous Course For Motorcycle Reliability Test Sunday

Twenty Riders To Compete In Second Big Competition

Trial Will Cover Practically Whole of Southern Tip of Island; Handsome Kirk Coal Company Trophy Will Go to Winner; Riders Will Do Nearly Five Hours' Riding; Bill Dillabough, Last Year's Winner, Will Defend Honors.

Covering practically the whole of the south tip of Vancouver Island, the Victoria Motorcycle Club's second annual reliability trial, to be held next Sunday, will be one of the most ambitious contests yet promoted by this rapidly-growing organization.

Approximately twenty riders will compete in the event which will be a thorough test for the skill of the riders and the ability of their machines. Over mountain trails, through marshy meadows and over roads of all sorts and sizes, the course will take the competitors a total of eighty-eight miles to be covered at a regular speed and in proper fashion.

The Kirk Coal Company has donated a handsome challenge trophy for the event. This will be awarded to the rider who keeps closest to his schedule and who takes the least number of "repairs." Smaller trophies will be awarded to the competitors who finish second and third. A cup may also be given to the rider who makes the most meritorious performance from the point of view of handling his machine at difficult points on the course.

Details of the trial have been arranged by Reg. Stank, one of the charter members of the club, who will announce the route at a meeting of the club to-morrow night. The details of the course will be withheld from the riders until the last minute in order that none will be able to gain an advantage by going over the route before the trial.

THE START
The riders will start from the corner of Holmes Street and North Quadra at 10 o'clock Sunday morning leaving at one-minute intervals. It is understood that during the morning will take the field to the Metcalfe District and the first rider is due back for lunch at 11:40 o'clock.

The start in the afternoon will be made at 1 o'clock and the route will take in most of the Spanish Peninsula. Three hours of riding is planned for the afternoon, the first competitor being due home at 4 o'clock.

Riders will be checked at twenty points en route and from each check must follow a certain schedule as laid down by the committee in charge. This will be checked in and out at each point and will have a separate schedule to follow between each check. This is a change from the system used last year when a time schedule was set for the whole course, thus causing competitors who were behind time to speed up. This speeding will be eliminated under the new system.

Riders are not allowed to use either speedometers or watches in covering the course. It is a test not only of the rider's ability to handle his machine but also in the judgment of time and distance.

Last year's event was won by W. B. Dillabough, one of the club's premier riders, who covered the course almost exactly on schedule. It is expected there will be keen competition to lift the honors from Dillabough this year.

Scored on Own Assist

By JIMMY THOMPSON

THOMPSON'S HOW THE PUCK WAS SHOT TO GIVE AN ASSIST AND A GOAL

THE CENTRE OF OTTAWA FORMS IT'S SAID TIES UP HIS SKATE EVERY TIME HIS TEAM GETS UP IN THE AIR

THIS ONE TOLD BY HARRY COVAT, OTTAWA

Pans will be interested to know that on his own authority Herberts of Detroit Cougars is the only player in the National League to have scored a goal and an assist in a game in which the final score was Boston 1, Ottawa 0.

During a recent fanning bee amongst a crowd of noted major league players took turns at telling the most thrilling features of their professional career. After the most of the boys had had their say Herberts cleared his throat with the finesse of a Laurier and reluctantly admitted to his hearers that he was the sole owner of that proud distinction.

Some of the boys whose experience was limited to being members of Allan Cup and Stanley Cup winners hesitatingly remarked that one player could not score an assist and goal on the same play. However, the debonair Jimmy soon explained himself. Here is his story in detail.

"Ottawa and Boston were playing nip and tuck in one of the season's greatest games. After fifty-eight minutes of cyclonic hockey the score stood Ottawa 0, Boston 0. I got a break from my position on the defence and set sail for the Ottawa goal at top speed. As I hit the defence I fooled Clarence right wing. 'My dismay I then noticed that Oliver was not there, having and seizing the puck fooled Connell with a waisted high shot for the greatest play of my career. The crowd, realizing that the unprecedented feat of an assist and goal had been completed by one man for the first time on a single in my career even to this day.'"

more important than they had been at all strength.

The French bided their time, and finally Leduc broke loose with a four Boston players behind him and Pete Lepine on his left. Shore was alone on the defence. Albert's pass to Pete beat Eddie and the relief Canadian centre flashed a shot, ankle high, into the far side of the net.

With three minutes left to play and the situation hopeless, Manager Art Ross, of the Bruins, took off his regulars and finished the game with the third string players on the ice. The visitors kept the situation well in hand to the final bell.

THE LINE-UPS
Boston—Goal, Thompson; defence, Hitchman, Shore; centre, Barry; wing, Galbraith, Oliver.
Canadiens—Goal, Hainsworth; defence, Burke, S. Mantha; centre, Morozuk, wing, Lachelle, Joliat.
Boston subs—Welland, Doc Carson, Owen, McKay and Clappie.
Canadiens subs—Wassie, Mondou, G. Mantha, Desjardins, Leduc, McCauley and J. Carson.
Referee—Newittson and Mallinson.

SUMMARY
First period—No score.
Second period—1, Canadiens, Leduc (unassisted), 8:43; 2, Canadiens, S. Mantha (Joliat), 3:17.
Third period—3, Canadiens, Lepine (Leduc), 16:27.

PENALTIES
First period—Barry and Wassie (roughing), McKay and Wassie.
Second period—Wassie (tripping), Owen (charging), Mondou (holding).
Third period—Mondou, Shore (2), Lachelle.

Ed. Lewis Held To a Draw by French Champ

Kansas City, April 2—Ed. "Strangler" Lewis, former world champion, and Hans Degen, French heavyweight titleholder, wrestled to a one-hour draw in the American Legion heavyweight tournament here yesterday evening.

Charles Flecher, world middleweight and light-heavyweight champion; three George McLeod, of Minneapolis, in 21 minutes 40 seconds with a body slam in a preliminary.

Pete Metropolit, welterweight titleholder, used a body slam to subdue Charles Carr of Shreveport, La., in 13 minutes 13 seconds.

Townsend's Right Hand Too Deadly For Cuban Battler

Canadian Lightweight Champion Scores His Second Knockout Victory Over Armando Santiago, End Comes in Seventh Round When Billy Lands Two Hard Right Crosses on Cuban's Jaw; Santiago Has Edge for Three Rounds by Outboxing Vancouver Boy; Bout Furious.

Los Angeles, April 2.—Billy Townsend, Canadian lightweight champion, knocked out Armando Santiago, Cuban, in seven rounds of furious fighting here yesterday evening before a packed gathering at the Olympic Arena. The rematch was not quite so sensational as the first fight, which Townsend also won via the knockout route in seven heats, but it proved conclusively that Townsend is Santiago's master.

Three times was the Cuban flash spread over the canvas. The last time found him unable to get to his feet ahead of the fatal count. He was erect two seconds later and left the ring under his own steam, but was a well-whipped fighter. Santiago went down in the second round from a belt on the whiplash. It sent him flat on his back but he bounced up at the count of seven and thereafter for three rounds decided to stick to his forte—boxing. He easily outpointed Townsend in the third, fourth and fifth and was out in front in the sixth until he forgot himself and elected to stand off flat-footed and slug. When he did that he flitted with just what he got in the seventh—fifty words of bad news.

In accordance with expectations or critics neither fighter showed the least fear of the other. They sparred about for a minute and then started tearing into each other. Santiago was outboxing Townsend as long range, but Billy decided to move in on him, and near the close of the round a right smash sent Santiago back on his heels. He managed to get back on his feet, but they were fighting furiously at the bell, so neither heard it. Townsend won the round.

In the second round Townsend crashed right hand blow that landed flush on the Cuban's chin. They fought the round as a terrific clip with Santiago having the better of it until the punch on the button. The colored lad kept up his rushing attack and had Townsend's face well marked. The punch caught Santiago off balance, as he was in retreat when it landed. He took a seven-count, got up and finished the round.

A TERRIFIC BLOW
Townsend showed some good defensive work in the third session. He kept ducking his opponent's right and as he came up kept landing lefts. They fought the round as a terrific clip with the fight live up to advance notices. The colored boy smarted up his technique in the fourth. He decided to forget his right hand haymakers and resort to boxing. He kept poking his left into Townsend's face and the blond boy got home only two rights and a terrific blow to the stomach. Santiago continued to outbox him throughout the fifth. The pace was slow in the sixth, what with Townsend trying to fight at close range and Santiago keeping him away with his left hand.

The blonds boy inflicted considerable punishment toward the end of the round. It gave him an edge in the round and made the fight even up to that point. Townsend refused to be kept away by Santiago's left hand and tore into the negro in the seventh and floored him with a terrific right cross. He got to his feet after the referee had completed the nine count only to run into another right which ended the fight.

PITCHERS' NIGHTMARE
A THREE-LEAGUE GAME PLAYED JULY 20, 1924

CLUBS 1 2 3 4 5 6 7 8 9 R
PEORIA 5 4 2 3 0 2 4 2 3 27
SPRINGFIELD 0 0 8 7 3 3 1 1 3 23

THE STRANGE STATISTICS
TIME OF GAME, THREE-AND-A-HALF HOURS. BILL ROGERS, PEORIA MANAGER, USED SIX REGULAR PITCHERS. THEN CALLED IN A RESERVE PITCHER, AN OUTFIELDER AND HIS FIRST BICE MAN TO DO THE WARMING-UP SPRINGFIELD USED FOUR PITCHERS. NO HOME RUNS, A TRIPLE, 7 DOUBLES, 10 BASES ON BALLS. BUSBY CHATHAM OF SPRINGFIELD WALKED 5 STRAIGHT TIMES. LAYNE OF PEORIA HIT 3 HOMERS, WHILE THOMPSON AND MENZIE OF SPRINGFIELD COLLECTED TWO EACH. FANS, PASSING DOWN THE SCOREBOARDS AT THE USUAL CLOSING TIME, RUBBED THEIR EYES, THEN HURRIED TO THE PARK TO SEE THE FINISH. THE CROWD IN THE NINTH INNING WAS SEVERAL HUNDRED LARGER THAN AT THE START OF THE GAME. THE WHOLE TOWN HAD A LATE SUPPER.

OFFICIAL SCORER, R. A. DYSDALE, SPORTS EDITOR, ILLINOIS STATE JOURNAL

Montreal A.A.A. Gains Lead Over Ottawa Gunners

Montreal, Que., April 2.—Montreal Amateur Athletic Association secured a ten-point lead over Ottawa Gunners in the first of home-and-home games in the Quebec Ottawa Valley section of the Dominion Senior Basketball playdowns, the Montrealers winning 34-24 last night. The second game will be played Saturday night in Ottawa.

Paulino Likes To Keep His Money In Safety Vaults

New York, April 2.—The only portions of U.S. banks "Paulino" Ureudun, Spanish heavyweight, trusted with his \$200,000 ring earnings were the safety deposit vaults, a former trainer, Arthur Soule, said yesterday in an affidavit led in the State Supreme Court. "The Basque woodchopper is being used by Paulino to go through with his bout with Ignacio Fernandez of the Philippines."

Golden Bears Have Tricky Tap Play

One of the surprises was the defeat of Miss Betty Abernethy of Pittsburgh, who was downed by Miss Louise Fordyce, Youngstown, Ohio, 7 and 7.

Miss Glenna Collett, United States champion, who is defending their North and South title, found little difficulty in being Mrs. John A. Andrews of Chicago, 7 and 6.

HELEN HICKS WINS
Miss Edith Quier of Reading, Pa., defeated Miss Dorothy M. Smith of Brooklyn by 7 and 5. Miss Helen Hicks, Howlett, N.Y., banged out a 6 and 4 victory over Mrs. Edward Baker, Boston, Mass., scoring three birdies on her way. But Mrs. O. S. Hill of Kansas City had some trouble beating Mrs. J. Marvin Hayes of Washington, D.C.

Mrs. Arthur Harrison, Lockport, N.Y., gave Miss Virginia Van Wie a scare and was 1 up at the end of the first nine. Miss Van Wie put on steam, however, starting at the eleventh, and took five of the next six holes.

To-day's matches find Miss Fordyce playing Miss Hicks and Miss Quier taking on Miss Van Wie in the first bracket, while in the second bracket Mrs. Pederman and Miss Collett clash, and Mrs. Hill and Miss Orcutt fight it out.

BRAVES ARE SHOWING WAY

Helped National League Clubs Gain Advantage Over A.L. Clubs in Exhibitions

New York, April 2.—With the Boston Braves, perennial holders of the Grapefruit League championship, showing the way, representatives of the National League have taken a comfortable lead over the rivals from the American in inter-league encounters this spring.

"Kid" Berg Is Matched With Veteran Glick

New York, April 2.—A ten-round battle between Joe Glick, veteran Brooklyn lightweight, and Jack ("Kid") Berg of England, will head Madison Square Garden's boxing show Friday night. The Glick-Berg encounter was arranged yesterday evening, a few hours after the Garden announced that Al Singer, Bronx lightweight ace, had injured his hand and would not be able to go through with his bout with Ignacio Fernandez of the Philippines.

Paolino Likes To Keep His Money In Safety Vaults

New York, April 2.—The only portions of U.S. banks "Paulino" Ureudun, Spanish heavyweight, trusted with his \$200,000 ring earnings were the safety deposit vaults, a former trainer, Arthur Soule, said yesterday in an affidavit led in the State Supreme Court. "The Basque woodchopper is being used by Paulino to go through with his bout with Ignacio Fernandez of the Philippines."

ENTER CONTEST WITHOUT LEADER

Saskatchewan Farmers May Wait Until Candidates Have Been Returned

Regina, Sask., April 2.—A leadership political organization is in prospect for Saskatchewan, members of the new farmers' political body may decide against choosing a president, postponing such a move until after the candidates have been returned in constituencies of the province. The successful nominees themselves would then decide who shall be their leader or governing body.

That is the attitude of Moss Thrasher, former secretary of the Saskatchewan section of the U.F.A., and one of the leading organizers of the new Saskatchewan Farmers' Political Association.

"I have consistently opposed the idea of selection of a leader at this convention," said Mr. Thrasher. "I consider that in order to safeguard this association from being tagged as simply another political party, the convention should select a strong representative executive and leave to this executive the selection of a chairman and a secretary."

POOL PRESIDENT GIVES VERSION

By the Canadian Press.

Winnipeg, Man., April 2.—"Wheat was being offered freely by the pool last fall at the time Mr. H. J. H. Thomas mentioned it was selling at \$1.47 per bushel," stated A. J. McPhail, president of the Canadian wheat pool today. He referred to the comment in the British House of Commons yesterday by the Minister of unemployment, who said he had advised the pool to sell on the high market.

"But no one was buying at that price," added Mr. McPhail. "Mr. Thomas did not offer to purchase any from us and he did not suggest anyone to whom we might be able to effect a sale." The pool president, who conferred with Mr. Thomas in Winnipeg last September and in Britain in January, made no admission that the British Minister had offered grain market advice as he stated.

FARMERS PLAN ACREAGE CUT

Washington, D.C., April 2.—The Department of Agriculture estimated today that farmers as a whole are planning to decrease the acreage of spring wheat by 3.7 per cent, a reduction of at least ten per cent was necessary for an appreciable effect on the market.

Reports indicate, the department said, that growers plan a fifteen per cent decrease in the durum wheat acreage, but no material change in the total acreage of other spring wheat, the decrease of about five per cent now planned in Montana, Idaho, Minnesota and some other states being offset by small increases elsewhere.

In 1929 there were 5,315,000 acres of durum wheat harvested in Minnesota, North Dakota, South Dakota and Montana. Planting intentions for this year in those states were reported at 4,516,000 acres. In spring wheat other than durum, 15,664,000 acres were harvested last year. Planting planned for this year was estimated by the Agriculture Department at 15,684,000 acres.

Department economists pointed out, however, that the statement of farmers' intentions to plant was not a forecast of the acreage that will actually be planted. It was simply an indication, they said, of what farmers had already planted or had in mind on March 1 to plant, compared with the acreage grown by them last year.

Washington Wheat Men Get Farm Board Aid

Spokane, Wash., April 2.—Approval of an application of the North Pacific Grain Growers Inc., for advances of \$1,000,000 secured by wheat, which will be supplemented by loans of \$400,000 from the Farmers' National Grain Corporation, was announced today by the Federal Farm Board, through E. M. Erhardt, president of the Spokane branch.

"We are now ready to make loans without delay on a basis of seventy per cent of the market value of wheat," Erhardt's statement said, "and it is our understanding that the Farmers' National Grain Corporation will advance \$1,133,000 less handling charges, insurance and freight, to cover terminals."

The North Pacific Grain Growers Inc. is the no-lower regional unit of the National Co-operative Marketing setup, made possible by the Farm Relief Act, under which the Federal Farm Board also was created. The Northwest unit embraces Northwest, Montana, Idaho, Washington and Oregon.

PLANE IS SAFE

Canadian Press.

Hamilton, Bermuda, April 2.—The United States monoplane Pilot, carrying Captain Lewis A. Yancey and two companions, arrived safely at Hamilton today.

The plane came into Hamilton Harbor under tow of the motor launch Gregory, after spending the night on a calm sea.

The plane was anchored to-day off the dockyard at 9:50 o'clock this morning, completing her trip from New York to Bermuda almost twenty-four hours after it had started.

OCCURRENCES OF GRAPHITE

Graphite is found in Canada in the provinces of Ontario, Quebec, New Brunswick, Nova Scotia and British Columbia, and in the northern parts of Canada in the Northwest Territories and on Baffin Island. Nearly all of Canada's graphite production comes from Ontario and Quebec, where graphite has been mined for more than sixty years, most of the producing mines and even extensive graphite concentrating mills being situated within a radius of 100 miles of Ottawa.

For Comfort As Well As Style Wear

"American Girl" Arch-support Shoes

One way of walking always with ease, comfort and sprightly grace would be to avoid hard pavements entirely and to keep only to springing turf or firm brown sand. Another way is to wear arch-support shoes such as the "American Girl" shoes—flexible, light in weight yet snugly firm. Thus we adapt ourselves to hard pavements and other adverse conditions, which is, after all more practical, isn't it? You may obtain "American Girl" shoes in black, brown and white kid in straps, ties and Oxfords. All have Goodyear welts and Cuban heels. Fitting AA to E. Sizes 3½ to 9. Per pair.....**\$7.50**

Notice to Ministers and Clergymen

Under the Marriage Act of 1930 no minister or clergyman may solemnize marriage in the Province of British Columbia, after the 1st day of September, 1929, unless his name has been previously registered with the Registrar of Births, Deaths and Marriages, Victoria, B.C.

All applications for registration of ministers and clergymen must be made by the governing authority having jurisdiction in this Province of the religious body to which he belongs. Forms are now obtainable from the Registrar of Births, Deaths and Marriages, Victoria, B.C.

ADVERTISE IN THE TIMES

POOR PA

BY CLAUDE CALLAN

8-10

"Aunt Ellen is so good that it looks like she'd pity sinners, but she don't. She's mad at 'em because she thinks they're havin' a better time than she is."

(Copyright, 1926, Publishers Syndicate)

Horoscope

THURSDAY, APRIL 3, 1930

This is rather a threatening day according to astrology. Adverse planetary influences are strong in the early hours.

Under this sway workers may be restless and difficult to direct. Springs fever may be prevalent.

It is not a cheering way for farmers who may find nature hard to subdue, while this rule of the stars prevails.

The planet is not auspicious for any sort of money risk. It is well to delay financial investments.

Next time is an aspect read as indicating continued agitation regarding law enforcement.

When we shall eat as well as what we shall drink will be of paramount interest at this time, it is foretold.

Under this sway there may be much deceit and double-dealing. The stars seem to encourage broodiness.

There is a direction of the stars-making for keen interest in politics and for making plans for future office-seeking.

Owing to the conflicting vibrations in planetary direction lawmakers are likely to reveal an inclination toward independent opinions.

The evening of this day is read as an auspicious time for intellectual activity. It is a time for making plans and appealing to the reason for decisions.

Persons whose birthday it is may have a year of minor annoyances. It is well to depend upon one's self and not to trust others too far in the transaction of business.

Children born on this day probably will be imaginative, sensitive and swift. The subjects of this story, Arles, are fond of travel and adventure.

Washington Irving, author, was born on this day. 1783. Others who have celebrated it as a birthday include Edward Everett Hale, 1822, author; Harriet Prescott Spofford, 1825, writer; John Burroughs, 1837, naturalist.

POOR PROVIDER

A colored woman consulted the village lawyer.

"Ah, wants to divorce mah husband," she said.

"What's the trouble?" asked the lawyer.

"That nigger's done gone and got married, and we ain't seen chicken on de table foh two months."

"We are now raising the most famous brewery in Berlin," explained the guide.

"We are not," replied the American tourist, as he hopped off the motor coach.

Anderson Told Tales to Entertain

Workers

"Tell us a story, now, Hans."

"Yes, do," chorused all the men and boys in the workroom, as they turned toward Hans Christian Andersen.

He was a very small boy, much too young to be working. But his father, a poor shoemaker, had died, and the mother and Hans both had to work in order to live. Hans had been taken out of school and given work

in a cloth factory. He soon became a great favorite with the other workers, when they found out he had a gift for telling stories, making them up as he went along.

"Once there was a princess," began Hans, in a loud voice, so all could hear him. And on he went with a beautiful story, so that they divided Hans's work between them, so they would not be scolded for leaving it. They were always glad to do his work while he told them stories.

The story-teller, Hans Christian Andersen, born April 2, 1805, in Denmark, wrote the fairy tales that boys and girls everywhere still love to read.

Civil Aviation Deaths Increase; Fewer Military

Reuter's Special to The Victoria Times

London, April 2.—An answer given in the House of Commons on the question of deaths resulting from accidents to British civil aircraft and to service flying machines came as a surprise to the average man.

The record covered the last three years, and it is rather remarkable in that while it shows a progressive number of fatal cases on the civil side, in the services almost the exact opposite is to be noted.

In civil aviation the figures are: For 1927, 1928, 1929, 1930; and for the last year, thirty-three—a total of sixty-one.

In service flying the deaths during the same period were fifty-seven, seventy-six and forty-two, respectively.

On both sides it has to be borne in mind that the number of aeroplanes now in commission grows year by year, and naturally an increase in the number of mishaps was to be regarded as inevitable; so it is all the more notable that, while a big jump took place in 1928 among service machines, last year, when more flying was being undertaken, that figure should slump to forty-two.

One explanation that presents itself is that there is now greater familiarity with the machines as a whole, while account must also be taken of improvements in them, rendering them more safe. Still, the fact that the number of deaths in a short period may bring up the average, which, as we know, has happened. One satisfactory feature lies in the fact that civil aviation has not been attended by the disastrous results some feared. Rather is the reverse true, although the public must make up its mind to be shocked at intervals by reports of disaster, more or less serious.

On the other hand, the fact that the number of deaths in a short period may bring up the average, which, as we know, has happened. One satisfactory feature lies in the fact that civil aviation has not been attended by the disastrous results some feared. Rather is the reverse true, although the public must make up its mind to be shocked at intervals by reports of disaster, more or less serious.

Here Is Latest In Houses With Almost No Work

Reuter's Special to The Victoria Times

London, April 2.—R. Buckminster Fuller, a designer and builder, predicts, hanging homes, suspended from mooring masts, assembled in twenty-four hours, furnished to put the most modern equipment to shame, and produced in mass at £600 apiece.

Mr. Fuller points out that an age which could provide the family of modest means with a motorcar, wireless, electric lights and refrigeration was 5,000 years behind in providing for the most elementary of all human needs—the home itself. The Dynatron House, a "compound of dynamic design and maximum area," which ignores all present structural and architectural ideas of a house, was described as the first practical attempt to solve the present-day housing ills by approaching the subject with a scientific mind.

The Dynatron House is hung from a central mast, which contains a storage tank for fuel oil, a triangular lift manipulated by cogwheels, and a power plant which drives the house as a unit from all dependence on municipal and public utility systems. The ground beneath the house is used as a shed for storing accessories and as a garage for motorcars or aeroplanes, being shut off or exposed at will by mechanical folding shutters lowered from above. Mrs. Fuller declared that automatic devices could reduce the housework to a

NEWS IN BRIEF

J. C. Brinkman was fined \$5 in the City Police Court this morning for failing to have a chauffeur's license.

The regular meeting of the Victoria Radio Club Inc. will be held at the Dallas Road clubrooms to-night at 8 o'clock.

Men to clean up gardens and cellars, equipped with full authority to burn the rubbish thus collected, are available through the Employment Service of Canada, Victoria branch.

The Burnside Ladies' Lawn Bowling Club will hold its last dance of the season in Hampton Hall this evening. This will take the form of an old-time dance, and those attending are assured of an enjoyable evening with good music and refreshments.

The bureau secured the co-operation of the Victoria Fire Department this week in arranging for bonfire permits to help in the annual spring clean-up of homes and gardens. Both male and female help for spring cleaning may be secured by telephoning 184, the local office of the service.

Two chestnut trees, gassed when road repairs were under way on Cook Street near Chapman Street early last fall, failed to recover from the shock and were cut down to-day to make way for new saplings. Both trees died within twenty-four hours of the gas attack, turning from full-foliated trees into blackened stumps almost overnight.

Permit was issued at the City Hall to-day to Mrs. M. E. McCabe for a five-room stucco dwelling and garage at 903 Colinton Street, to cost \$3,000. A Webster will do the work. Permit was also issued to Harry Catterall as contractor for alterations and improvements at the premises of Price and Smith, 614 Yates Street, to cost \$200.

The noon hour weekly prayer meeting of the Shantymen's Christian Association will be held between 12 and 1 o'clock to-morrow in the Y.M.C.A. Miss Brook, who has recently taken up joint work with this association and the Canadian Sunday school, will briefly address the gathering. Dr. W. Daly will preside.

NEW PENSION PLANS UNDER DISCUSSION

Local Pensioners' Association Considers Report of Government Member

New pension administration plans as presented to the special parliamentary committee on soldiers' problems at Ottawa yesterday by Major C. G. Power of Quebec, the chairman, were fully discussed at a meeting of the directors of the Canadian Pensioners' Association here last night.

Considerable interest was evinced in the proposals but after all angles of the matter had been considered it was decided to leave everything to the parliamentary committee without sending recommendations or endorsement.

Extension of the association to the Yukon was also discussed and the secretary, J. Sangster, was instructed to communicate with returned soldiers at Kenjo, Mayo, Dawson City and Whitehorse regarding the project. A committee will later be formed to proceed to the Yukon and get under way the organization of the new branch, assisted by T. Lawson, a former Yukoner.

Officials of the pensioners' association announced to-day that in connection with recent suggestions advanced by the body in regard to pension work, G. H. Sedger, local soldiers' advocate, to whom several statements were attributed, was not directly associated with these matters. They were put forth by the association as a whole.

OBITUARY

The funeral service for Dorothy Elaine, infant daughter of Mr. and Mrs. John Baxter, took place yesterday afternoon at 3:30 o'clock from the family residence, 510 Admirals Road, Relatives and a number of friends were in attendance, and there were many beautiful flowers. Rev. J. B. Patterson officiated and the remains were laid to rest in Ross Bay Cemetery.

Relatives and a very large gathering of sympathizing friends attended the funeral service yesterday afternoon at the Sands Funeral Chapel over the remains of Mrs. Ida Madeline Evans, who passed away at St. Joseph's Hospital last Thursday. Rev. Arthur de B. Owen officiated, and the hymns sung were "Jesus, Lover of My Soul" and "Lead, Kindly Light." J. L. Mason, J. F. Jameson, J. Baxter, W. E. Gurney, R. Thomas and J. C. Williams acted as pallbearers, and the remains were laid to rest in the family plot at Ross Bay Cemetery.

Funeral services will be held at St. Mary's Church, Oak Bay, to-morrow afternoon at 2 o'clock for the late Mrs. Frances Mitchell Page, widow of S. Spencer Page of Regina, who passed away suddenly on Monday at 2040 Granite Street. She is survived by two daughters, Mrs. George Shum, Mrs. Daquim Beach; Mrs. Ernest Beckton, Oak Bay, and one brother, E. C. Pierce, of Tulameen, B.C.; also her three daughters, Mrs. R. D. Porter, Alberni; Mrs. G. L. Wheatley, Maple Creek, Sask.; and Mrs. M. A. Burbank, of Prince Rupert, and two sons, A. S. Page of Vancouver and L. R. Page of Winnipeg. The remains are resting at the B.C. Funeral Chapel.

The funeral of Mrs. Susan Halpin took place this morning at 9 o'clock, proceeding to St. Andrew's Cathedral, where mass was celebrated at 9:15 by Rev. Father Evans. Many flowers covered the casket. The pallbearers were John O'Hagan, Charles McGregor, Thomas Halpin, Joseph Drennan, L. A. Marston and W. G. King. Interment was made in Ross Bay Cemetery.

HUNDRED ON FERRY DROWNED IN JAPAN

Tokio, April 2.—More than 100 persons were believed drowned to-day when the ferry boat Wakamatsu, carrying 300 passengers from Wakamatsu to Tobata, capsized. The ferry boat was overcrowded and a high sea was running.

NOT GUILTY VERDICT ON THEFT COUNT

Assize Jury Finds Evidence Against Dawley and Vipond Insufficient

Clifford Dawley and Cecil Vipond, charged in Assize Court with breaking and entering and theft, were acquitted when the jury returned a verdict of not guilty at 2:42 o'clock this afternoon.

In a careful charge to the jury this morning, Mr. Justice Murphy instructed jurors to disregard the first count in the indictment against Dawley and Vipond. No evidence, he said, had been submitted to support the count of breaking and entering. They remained the count of alleged theft, he said, and reviewed the evidence given by both prosecution and defence witnesses on this point.

His Lordship commented on the fact that possession of a yellow-back ten-dollar bill was not proof that the bill had been the one alleged to have been stolen, and drew attention to the time factor in the case. The handbag from which it was reported money had been missing had not been checked over on the same day as the alleged offence, he said, insisting that the jury use their own opinion as to the weight of the evidence on either side. It was for the Crown to prove the crime and the commission, if any, of the accused with the crime, he stated.

QUESTION OF ALIBI

It was to be observed that alibi evidence was the most effective when it existed, and that it was the easiest to simulate, by recording actual facts with a slight transposition of the time, continued the court. The jury had a right to believe or disbelieve any witness, and should bring common sense to bear on arriving at any decision on the facts presented in court.

Prior to the judge's charge, D. S. Tait, counsel for the two accused, submitted that no case had been made out, and that the defence's alibi evidence had been proved without effective challenge. H. W. B. Moore, Crown counsel, rectified the evidence adduced for the prosecution and for the defence, and spoke of the difficulty of disproving an alibi defence under the most favorable circumstances.

The jury retired at 12:30 o'clock.

MANSLAUGHTER TRIAL

The trial of Rex versus Henry Pfister, opened, with R. C. Lowe for the prosecution, and Mr. Moore for the defence, consisting of a charge of manslaughter, and two lesser counts of occasioning bodily harm. The case was opened by the death of Mrs. Martha Davies, an Indian woman, and an auto accident on the East Saanich Road early this year.

The trial jury was chosen and sworn before the luncheon recess, and evidence is being heard this afternoon.

In releasing the Grand Jury this morning, Mr. Justice Murphy took notice of a presentation made in connection with the Courthouse building and thanked the jurors for their services.

Crown counsel had previously stated that while other cases were in course of preparation the briefs would not be ready in time for inclusion at this assize.

PHONE LINEMEN NEARING END OF PROGRAMME

New Cables Being Installed in Oak Bay and Fairfield Areas

Population Increase in Victoria Requires Policy of Costly Replacements

Local telephone men are now nearing the end of an outside cable programme which is larger than anything of the kind which has been carried out here since before the war.

The new cables have been made necessary by the steady growth in certain districts. Much of the work was done last year but the B.C. Telephone Company's heavy rains will be busy on these additions for some time yet.

New cables are now being placed in the Willows area. A 600-pair underground cable has been "pulled in" from Richmond Avenue to Port Bay Road, a 400-pair aerial cable has been placed from there to Bowker Avenue, and other smaller aerial cables to feed the surrounding district are also going up. Work in this section should be finished in about a week.

A 600-pair cable has been placed underground on View Street to Linden Avenue, along which a 400-pair cable extends to Fairfield Road, and thence to Moss Street. From that point a smaller cable continues along Moss Street.

Too Much War
Magistrate—You ought to be ashamed of yourself, deserting your wife like this.

Defendant—If you knew my wife, your worship, you wouldn't call me a deserter. I'm a refugee.

WELSH SINGERS PERFORM THREE TIMES SUNDAY

Arrangements have been made to have the Imperial Welsh Singers, who delighted audiences at the Shrine Temple on Monday and Tuesday nights, sing here three times on Sunday. They are to appear at both the morning and evening services at the City Temple and at a sacred concert on top of Mission Temple at 3 o'clock in the afternoon. Rev. Dr. Clem Davies, pastor of the City Temple, expects large attendances at all services on Sunday as the Welshmen are a great attraction and their singing has been highly commented upon by all who have heard them.

RETIRE AFTER LENGTHY SERVICE

J. E. MILLER

well-known civil servant, who has retired after forty-seven years' continuous service. He was district inspector of the Department of National Revenue and, on retiring on Monday, was presented with a purse of gold and an illuminated address by other members of the department.

KINSMEN WILL CONVEY HERE THIS WEEK-END

Annual Gathering of District No. 5 Will Be Held Saturday and Sunday

Fine Entertainment Programme Arranged For Visitors During Meeting

Kinsmen from Vancouver, Duncan, Chilliwack and Vernon clubs will convene with local representatives at the annual district convention in the Empress Hotel, Saturday morning. During the early session, after hearing the message of welcome from District Governor J. C. A. Hutchison, the delegates will carry out their routine business, which will include nominations for governor, discussion on the spokes club, sports committee and service work, as well as consideration of the national convention. Reports from the governor, secretary and treasurer will follow and the meeting will be brought to a close with the election of the district governor.

At 1 o'clock the members will again meet at luncheon and will, in the afternoon, enjoy the entertainment programme drawn up by the local committee. Golf, at the Oak Bay links, sight-seeing and swimming will be offered for the entertainment of the visitors.

At 7:30 o'clock the Victoria club and delegates will entertain the other members at dinner at the Empress and will form a party to attend the wrestling match at the Armories.

On Sunday morning golf games will be arranged at the Uplands while in the afternoon the anglers of the club will be given an opportunity to show their prowess at Brentwood.

Five delegates representing each club at the convention, Deputy Governor R. D. Purvis, Secretary H. K. Hall, Treasurer P. A. White and Host Club President S. F. Miles will be in charge of the business session.

POLICE SEIZE BOOKS IN BROKER'S OFFICE

(Continued From Page 1)

and Co. Limited leave to appeal to the Supreme Court of Canada from a judgment setting aside an injunction of Chief Justice Aulay Morrison which restrained the execution of search warrants on the brokerage firm's Vancouver office, but refused to make any order for the preservation of various books and documents pending the outcome of the appeal.

C. H. Locke, counsel for Alberta in the injunction proceedings following the court's decision, ordered Vancouver police officers to seize the documents, sought for the trial of Talloway and Mills in Calgary in office of Soloway, Mills and Co. Limited here.

"We have decided to grant special leave to appeal to the Supreme Court of Canada," announced Mr. Justice Aulay Morrison sitting with Justices W. A. Galt and A. E. McPhillips. "But we are of the opinion that justice does not require us to make any further order on this application. The costs of the application abide the result of the appeal to the Supreme Court of Canada."

J. W. DeB. Farris, K.C., counsel for Soloway, Mills and Co. Ltd., stated later that he did not think that his clients would appeal.

The court, having refused to make any order for the preservation of Soloway, Mills and Co.'s documents, pending the outcome of the appeal, an appeal to the Supreme Court of Canada would be futile for the purpose of practical effect, he said.

The court was stated. The court was asked to decide an academic question concerning the validity of search warrants, and in the meantime the documents, for which the warrants had been issued, would be seized and removed to Alberta.

NANAIMO FINDS BURGLARS BUSY

Special to The Times

Nanaimo, April 2.—Burglars were again busy here yesterday. The Nanaimo premises of the Imperial Oil Company and the Home Oil Company's office at Newcastle Townsite were broken into by skilled safe-crackers, who failed to get articles of value.

At the Imperial Oil office the combination of the safe was broken but the safe was not entered. The Home Oil safe was ransacked without result. No arrests have yet been made.

ALL COMMODITY PRICES BELOW PRODUCTS COST

Stock Crash Not Wholly Responsible For Depression, D. Konantz States

East Anticipates Improvement Before Effect Is Seriously Felt on Coast

"Production must be on a profitable basis to give prosperity to the country, and commodity prices must be sufficient to give the producer a fair margin of profit before conditions are better," declared Donald G. Konantz of the North American Lumber and Supply Company of Winnipeg, who is at the Empress Hotel to-day, in speaking of the business depression that is being felt in the east.

"Almost all the commodity prices are below cost of production, and although the stock market may be partly responsible, that is largely the reason for the dull times that are being experienced," said Mr. Konantz.

DEPRESSION EXISTS

"It cannot be denied that a serious business depression exists, although you have yet to feel it on the coast. But there are cycles governing the business world, which automatically raises the average selling level to help production, and this will probably be brought about before the effects of the depression are felt out here.

There is a very hopeful feeling in the east, and as you know, we are all optimists.

The big majority of producers with which our firm has business affiliations have sold their products at a very satisfactory price level."

Mr. Konantz's company has 22,000 farm accounts, and consequently the firm is very close to the farmers' prices.

The North American Lumber and Supply Company has been operating on the prairies for the last twenty years, being one of the oldest established lumber companies in the country.

SATISFIED WITH POOL

Mr. Konantz said the farmers appeared to be well satisfied with the operations of the Wheat Pool, although disappointment naturally existed in the price of wheat. There had been no criticism of the pool leaders, he said.

If they can operate the pool as well as they have operated it, they are pretty good at the business," argued Mr. Konantz.

The coming year would be the real test for the Wheat Pool, he believed. "As far as the pool is concerned," Mr. Konantz went on, "it serves the purpose of the grain trade. It is merely another elevator company operating on the basis of average prices. The Canadian Wheat Pool is the only co-operative effort of its kind in the world, and it is a model that other large wheat producing countries have contemplated copying."

"It started at the right end, as it was the producers that organized the pool. The ordinary farmer is not in a position to market his grain to the best advantage, and that is where the Wheat Pool comes in to the benefit of the farmer."

CANADA'S OPPORTUNITY

"Canada has its opportunity over the United States in the production of wheat," said Mr. Konantz. "We can produce cheaper wheat here."

If substantiation of this argument be referred to the year 1923 when the survey disclosed that it cost sixty-three cents to produce a bushel of wheat in Canada as against \$1.03 in the United States.

Mr. Konantz arrived here to-day after spending a two months' holiday in Vancouver before he left for the people of the United States well disposed towards Canada and spoke of the interest and knowledge displayed in Canadian oil and mineral wealth.

Mr. Konantz will probably go to Great Central Lake as the guest of Bruce Ferri, of the Great Central Sawmills. To-day he played golf at Colwood.

COURT SUSTAINS STAMP TAX ON BOND TRANSFER

Magistrates Ruling Against Miller, Court Upheld in Supreme Court

Vancouver, April 2.—Validity of the Federal stamp tax on the transfer of stocks and bonds has been upheld in the Supreme Court of British Columbia by Chief Justice Aulay Morrison, who in a test case, dismissed an appeal of Miller, Court and Company Limited from a decision of Magistrate H. C. Shaw.

In police Court, Magistrate Shaw imposed a \$100 fine on the brokerage firm for not having affixed a stamp, as required by amendment to the Special War Revenue Act, on the sale of Vancouver Stock Exchange of 1,000 shares of Mayland Oil.

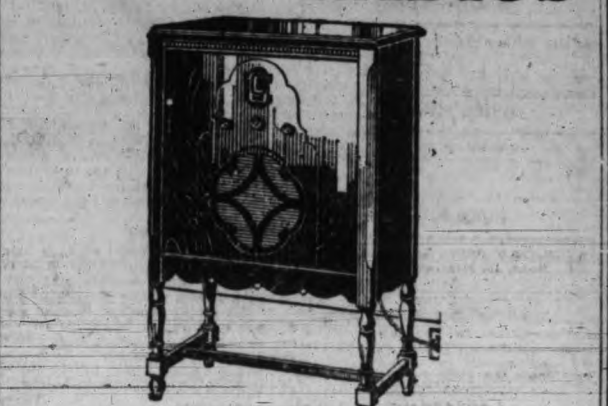

The Chief Justice, agreeing with the magistrate, held that the statute in question is intra vires of Parliament. Section 53 of the Special War Revenue Act, 1915, authorized a stamp tax on the sale or transfer of stocks and bonds. Validity of the enactment, as amended in recent years, was attacked by Miller, Court and Company Limited who refused to pay the tax.

This is a matter of national interest and importance and tends to affect the body politics of the Dominion of Canada," said Chief Justice Morrison.

"The legislation was passed under circumstances of national crisis and deals with a subject of national importance, and is justified as being for the peace, order and good government of Canada. The doctrine of ultra vires must be applied reasonably and not unreasonably. Conversely, it might be equally right to say that the doctrine of ultra vires must be applied reasonably and not unreasonably, and I make no doubt that Parliament may deem it now expedient and fair, and that on the grounds of public policy an amendment to meet the exigencies of the situation as they exist at present is necessary. This is a case of course, gratulatio obiter dictum."

YOUR FEET

Dorothy Dix

WHY IS it that every woman who is not married takes it for granted that if she had married she would have gotten the ideal husband and been perfectly happy? Apparently never a suspicion crosses her mind that she could have made a mistake and picked out Mr. Wrong instead of Mr. Right, or that the man she married might have the faults and foibles of other husbands, or that her matrimonial path might have been strewn with tacks instead of roses.

No, indeed. She is utterly certain that her husband would have been a happy combination of Romeo and Jacob and Mr. Ford, and that he would have been faithful and devoted and tender and considerate, and a money-maker who would have provided her with servants to wait upon her and Paris clothes to wear and limousine to ride in.

How women get this way, goodness only knows. Why every spinster is so cocksure that she would have drawn a matrimonial prize if only she had taken a chance at a glory ticket, as our colored friends call a marriage license, nobody can tell. It is one of the inexplicable mysteries of feminine psychology, and a signal illustration of the triumph of hope over other women's experiences.

It can't be because she has been misled into believing that every woman steps from the altar into an earthly paradise, and that there is some magic in a wedding ring that conjures all of her troubles away. She has seen too much of her mother's and her sister's and her cousin's and her aunt's domestic life for that. She has seen them dealing with grumpy and surly husbands, and corking pennies out of tightwad ones. She has seen them working out a life sentence at hard labor over the washtub and the cook stove and the sewing machine and the perambulator. She has seen them tired and old and broken before their time.

She has seen Sally, who used to be the best-dressed girl in the office, and who always looked like a fashion plate, going shabby and seedy after her touseau wore out. She has seen Kate, who was so gay and high-spirited and full of pep as a girl, turn into a discouraged and spiritless married woman. She has seen Belle, about whom men flocked like bees about a honeypot, and who was admired and flattered and plied with gifts and attentions, neglected and spending dull evenings at home while her husband stepped out to amuse himself.

And it hasn't seemed to the unmarried women that the lot of these other women was superior to her own, with its good job, its good pay envelope, and its freedom. Only she is sure that the fate of the average woman would not have been her own. She would never have been the poor, she would never have had to worry about where the rent money was coming from.

Her husband would have been a go-getter who could outprint the nimblest dollar and she would have been lapped in ease and luxury. Her children would never have been brats. They would have been golden-haired cherubs with blue ribbons on their curls who never got dirty or needed to be spanked. Her husband wouldn't have been a philanderer who kept her green-eyed with jealousy all the time. He would have been a sheik who never saw any petticoat but hers, and never grew weary of telling her that she was the only woman.

Nor do the unmarried women, when they look upon the husbands of their friends and acquaintances, see many married gentlemen who have any of the recognizable earmarks of the Fairy Prince.

Mostly they see a lot of stout, bald-headed men whose conversational repertory runs from bootleggers and golf to the stock market and the hardware trade and back again, ad lib, and they don't see anything to break your neck about getting a man like that. And they see a lot of these men who are poor money-makers, and a lot of others who prefer to spend their money on blondes to their wives. And they see others who are gloomy Gussies around the house and who never give their wives a kind word, or pay them a compliment, or show them any tenderness, and the spinster sees no reason for any wife to make whoopee about having a legal claim on any of these gentlemen.

But she just feels in her bones that she would not have got that kind of a husband. Hers would have remained young and slim and handsome and been a spellbinder and a pal and a companion and a romantic hero, and stuck to his own fireside like a house cat, and so on.

And that is why, when I try to console the bachelor girls and tell them that they are not as unfortunate as they think they are in not being married, and that a good job is better than a bad husband, they rise up en masse and tell me that I don't know what I am talking about. They admit it is true that a miserable marriage is the most miserable thing on earth, but they never in the world would have made that kind of marriage.

Of course it is true that the happiest estate on earth is that of the man and woman who find in each other their real mates. Of course the most blessed of women is she who gets a husband who is true and loving and kind. But I wish that these women, who think that they missed everything in life that is worth having because they did not marry, would cast an eye at the other side of the picture occasionally and realize that really congenial marriages are not the rule, but the exception, and that it is, at least, a possibility that they might have drawn a blank in the matrimonial lottery as so many of their sisters do.

It might make them take a more philosophical view of their fate and realize that single blessedness is better than double wretchedness.

Ella Cinders

For a week the world has believed Ella lost forever—devoured by wild beasts on a strange island in the Pacific where she and her film troupe were marooned. Her fellow castaways set out in small boats and finally reached the mainland. And now what of Ella?

WHERE AM I? WHAT HAPPENED?

YOU'VE BEEN ILL WITH FEVER! WE FOUND YOU IN THE JUNGLE UNCONSCIOUS AFTER A BIG STORM!

THIS IS COSTA BLANCA ISLAND OFF THE COAST OF LOWER CALIFORNIA! IT'S OFF THE SHIPPING LINES BECAUSE OF THE REEFS, SO YOU'VE PROBABLY NEVER HEARD OF IT! WE'RE THE CARETAKERS!

DON'T BE AFRAID! THIS ISLAND IS USED AS TRAINING QUARTERS FOR CIRCUS ANIMALS! THEY LET THE TAME ONES ROAM FREELY!

CAN YOU IMAGINE THAT I THOUGHT I WAS A MILLION MILES FROM NOWHERE AND I TURN UP IN THE MIDDLE OF A WILD ANIMAL FARM JUST A STONE'S THROW FROM CALIFORNIA!

Thank goodness Ella is safe! But she doesn't know! She has been deserted by her fellow castaways.

Bringing Up Father

THIS IS TERRIBLE. I'VE NEVER SPENT A MORE MISERABLE TRIP IN MY LIFE. WELL, NOTHIN' WORSE CAN HAPPEN.

HOW DO YOU DO, LORD SPURVELVEED? AND HOW ARE YOU, BARON ISLAND?

AH, MRS. JIGGS. YOU LOOK CHARMING THIS MORNING.

WON'T YOU SING FOR US, MRS. JIGGS?

WITH PLEASURE.

OUCH!

HEY! LISTEN TO ME!

LET ME GO. I'VE HEARD ENOUGH!

Mutt and Jeff

ANYBODY WHO BORROWS MONEY OFF US MUST HAVE TWENTY FRIENDS ENDORSE HIS APPLICATION!

WHY, ER—

IN YOUR CASE, WE WILL CHOP THE NUMBER TO TEN FRIENDS!

WELL, YOU SEE—

HAVE YOU GOT FIVE FRIENDS?

ER—THAT IS—

HAVE YOU GOT THREE? HAVE YOU GOT TWO? HAVE YOU GOT ONE?

WE'LL HAVE TO NOTIFY HIS FRIENDS!

AMBULANCE DOCTOR

The Gumps

DOOR BIMBO— HE IS LONESOME NO MORE— TODAY HIS CUP OF HAPPINESS IS OVER-FLOWING— HE IS LEAVING WITH JOY— WHEN HIS HEAVENLY TOLD HIM HOW MUCH HE REMINDED HER OF THE WORLD'S GREATEST LOVER— AND THAT HEREFTER SHE WOULD BE HIS JULIET AND HE HER ROMEO— IT WAS TOO MUCH FOR HIS NOBLE SOUL— HE WAS SO HAPPY HE SAT DOWN AND SHED A GOOD OLD TEAR—

WHAT A FORTUNATE MAN— TO HAVE SUCH A JEWEL

AND WHAT A PRECIOUS JEWEL YOU ARE— ALL MINE— AND I WANT YOU TO HAVE A JEWEL ALSO— DEAR— SOMETHING TO MATCH THE BRILLIANCE OF YOUR EYES— IT WILL BE THE MOST EXPENSIVE GIFT THAT MONEY CAN BUY— THE MOST COSTLY— AND I WILL PRESENT IT TO YOU AS A CROWN— A TOKEN OF MY GREAT LOVE FOR YOU ON THE DAY OF OUR WEDDING— WHEN YOU REALLY BECOME MY QUEEN—

I WANT YOU TO SEARCH THE WORLD OVER FOR THE MOST PRECIOUS JEWEL OR PIECE OF JEWELRY THAT CAN BE FOUND— BRING IT TO ME— PROVE THAT IT'S THE MOST COSTLY PIECE IN THE WORLD— AND THAT IT'S GENUINE— AND I'LL BUY IT— IF IT COSTS MILLIONS—

OUT OUR WAY

WHUT'M I DOIN? WHY, JISS SHARPENIN' A PENCIL IS ALL.

THE AFTER EFFECT.

By WILLIAMS BOOTS AND HER BUDDIES

I HATE LIKE SIXTY TO DO THIS— BUT, I'M GOING TO FIND OUT WHO THAT YOUNG LADY IS, OR—

ON GEE! MY ROMEO IS FOLLOWIN' ME— WHAT'LL I DO? I CAN'T LET HIM FIND OUT WHO I AM NOW— IT'D SPOIL EVERYTHING

I'M GLAD I PARKED SO NEAR— NOW IF I CAN ONLY GET STARTED, AN' AWAY— QUICK ENOUGH

DO OUR MYSTERIOUS BOY FRIEND GET THE LICENSE NUMBER ON BOOTS' CAR?

WILL HE FIND OUT WHO SHE IS?

JUST WHY IS HE SO ANXIOUS TO KNOW?

?
